

The 14th Medium-term Management Plan

In April of this year, we commenced “‘The 14th Medium-Term Management Plan’ All For Your Smile: Providing Wholehearted Services ~ 2nd Stage ~” which will run for three years from FY2017 to FY2019. In this management plan, with “engagement first” as our cornerstone activity, we will transform our business model to create a positive cycle of “contribution to the growth of customers and local economies” and a “revenue structure with stability and permanency to support local communities” by implementing the six basic strategies of “expanding contact points with customers and offering solutions above and beyond expectations,” “actively getting involved in community tasks,” “building strategies by region,” “improving fund management capacity,” “improving management efficiency to survive competition,” and “helping each employee improve performance.”

FY2017 Year-end Targets

Earning capability	Growth potential (customer base)	Financial soundness
Net income (consolidated)	Community presence (daily-average deposits + daily-average loans)	Equity ratio (consolidated) Full implementation basis
¥10 billion	¥10,000 billion	Around 8.7%

Long-term targets

Earning capability
ROE (consolidated)
5%+

- Net income (consolidated) = Net Income Attributable to Owners of the Parent
- Core capital ratio (full implementation basis) = $\frac{\text{Core capital (before transitional arrangement)}}{\text{Risk assets (before transitional arrangement)}}$

Through these initiatives, we aim to become “a financial group that is needed by customers and grows with customers.”

We will be committed to implementing the following basic strategies under the management plan, in an effort to appropriately address the challenges that surround the Group.

Basic Strategies

• Expanding contact points with customers and offering solutions above and beyond expectations

We will develop a sales stance of sincerely tackling the diverse needs and tasks of our customers, while demonstrating our comprehensive strength as a Group.

Business customers

We will take risks appropriately and perform financial intermediary functions mainly through business performance evaluations, as well as work to solve our customers’ issues by providing support according to their growth stage.

Individual customers

We will promote comprehensive transactions by providing goods and services according to customers’ life stages to explore their needs. In addition, we will work to improve channel functions through region-specific branch operations and the expansion of non-face-to-face channels.

• Actively getting involved in community tasks

The Group will support local governments’ “comprehensive strategy for vitalizing towns, people, and jobs,” while fulfilling its responsibilities to regions through initiatives such as actively participating in regional development projects.

• Building strategies by region

In Gifu Prefecture, we will establish an absolute operational base mainly by demonstrating regional financial intermediary functions backed by an extensive branch network and a substantial volume of information.

In Aichi Prefecture, we will further demonstrate our presence including leveraging the growth potential of the market and enhancing our business base, in addition to focusing on business resources.

• Improving fund management capacity

In addition to improving our capacity to manage marketable securities primarily by diversifying investments to flexibly respond to changes in the market environment, we will work to utilize various financial techniques.

• Improving management efficiency to survive competition

In addition to accelerating business reforms, we are working to streamline branch operations in view of demographics.

We will also strive to further optimize our personnel allocation and workforce, including streamlining of the head office organization.

• Helping each employee improve performance

We will focus on developing human resources that can contribute to customers and regions, using the Bank as a means to do so. We will also carry out work style reform, such as considering mechanisms to encourage employees to take on challenges.

Corporate Governance

Basic Policy

At Juroku Bank, we believe that retaining the trust of our stakeholders by conducting all of our activities in a sound manner is vital to our role as a financial institution. Therefore, we place the highest priority on building a solid organizational structure and establishing systems that continually reinforce corporate governance.

In association with the entry into effect of the Companies Act, we established a Basic Policy related to the Establishment of an Internal Control System at a meeting of the Board of Directors held on May 24, 2006. Since that time, we have revised this basic policy as necessary and in a timely manner, and have endeavored to develop and continuously refine the system to ensure the appropriate execution of business at the Bank and the corporate group comprising the Bank and its subsidiaries. Under this basic policy, we will pursue initiatives to enhance corporate governance.

Progress Thus Far

The Board of Directors comprises nine members including two Outside Directors (as of June 23, 2017) and it is held at least once a month, in principle, to deliberate and decide matters stipulated in laws and regulations and important management issues, and it also monitors directors' conduct of business operations by having each director report his/her own execution of duties at least once every three months, pursuant to Article 363, Paragraph 2 of the Companies Act. Additionally, in order to further ensure the transparency and fairness of the Board of Directors' decision-making activities, a Management Advisory Council has been established as an advisory body to the Board of Directors.

The Bank has adopted the executive officer system and ensures that executive officers appointed by the Board of Directors responsibly execute the business operations of the sections in their charge. The adoption of the executive officer system allows the Board of Directors to take on the functions of management supervision in a more effective manner, while also enabling quick decision making by the management team. In terms of important matters affecting the daily conduct of business operations, a Management Council, comprising the president and CEO, deputy president and director and managing executive officers, has been established to enable quick and bold decision making.

Furthermore, an Operational Audit Committee has been established to enhance the supervisory functions of the Board of Directors on the execution of business operations, thereby further enhancing the corporate governance system.

The Audit & Supervisory Board comprises four Audit & Supervisory Board Members, including two Outside Audit & Supervisory Board Members and two Standing Audit & Supervisory Board Members (as of June 23, 2017). To support the Audit & Supervisory Board Members, we have established the Audit & Supervisory Board Members' Office, which monitors the execution of business operations objectively and ensures appropriate auditing functions. The Audit & Supervisory Board is held at least once a month, in principle.

With regard to internal controls, the Audit & Inspection Division conducts internal audits, and at least once per year seeks outside opinions regarding the development and management of the internal control system.

Based on these objective opinions, we work to further improve the internal control system. Moreover, to reinforce the compliance system, we have established a whistle-blower system and have improved the effectiveness of the system by using an external lawyer as the point of contact.

With respect to the risk control system, we have established the Integrated Risk Management Council, Operational Risk Management Council and Compliance Council. These committees discuss risk management issues both on a regular basis and when necessary. At these meetings, the appropriateness of operations is reviewed and risk management is applied to minimize loss due to unforeseen circumstances. The Integrated Risk Management Council and the Compliance Council meet once per month, in principle, while the Operational Risk Management Council meets at least once every 6 months, in principle. We have also signed consultation agreements with six lawyers, who provide advice on legal matters and perform a variety of legal checks when necessary.

The Bank's accounts are audited by the independent auditing firm Deloitte Touche Tohmatsu LLC (as of June 30, 2017). This firm provides accurate audits on the basis of appropriate information disclosure.

Going forward, we will work to further enhance our corporate governance standards and ensure the soundness of our ethical conduct and financial position.

Basic Policy on Strengthening Internal Control System

We are currently making efforts to build an internal control system based on the policies described below.

1. System to ensure that the execution of duties by directors of the Bank and its affiliates comply with all relevant laws, ordinances, regulations, and the Bank's Articles of Incorporation

(1) Our Basic Policy establishes the Bank's commitment to serve local communities by fulfilling its mission as a financial institution, and to seek business growth through sound practices founded on a broad and rational perspective.

(2) To implement this policy, directors and executive officers of the Bank are responsible for the establishment of various standards including the Code of Ethics and Compliance Policy, and for ensuring that business is conducted in accordance with these standards and that laws, ordinances, and the Articles of Incorporation are adhered to. In addition, directors are responsible for steadfastly confronting any anti-social forces that pose a threat to social order and safety; thereby directors consolidate a system to sever all ties to these forces.

(3) The Bank's affiliates make best efforts to pursue legitimate and fair business practices that respond to social obligations, based on their own basic policy and management philosophy that are adequate for the nature and scale of their business. In addition, the affiliates are responsible for the establishment of the Code of Ethics and Compliance Policy to ensure that business is conducted in accordance with laws and ordinances as well as social norms.

2. System for storage and management of information related to the execution of duties by directors of the Bank

To ensure efficient verification of proper business practices, regulations will be created and followed on the handling and control of information and documents related to business operations (including electronic records); adherence to these regulations will be monitored, and regulations will be revised when necessary.

In addition, a system will be established to enable directors and Audit & Supervisory Board Members to view this information and the relevant documents when necessary.

3. Risk management regulations and other structures related to risk of loss at the Bank and its affiliates

(1) The Bank positions the risk management as an important duty to ensure the soundness and safety of business, and regulations related to each type of risk, including a Comprehensive Risk Management Regulation, will be established in order to manage risks associated with the business of the Bank and its affiliates in an exhaustive and comprehensive manner. Efforts will be made to appropriately improve the measurement, evaluation, and management of risk by following these regulations.

An independent third party will regularly evaluate the Bank's management of major risks, and the Bank will continually work to improve risk management level evaluations.

(2) In addition to designating one department to comprehensively manage risk, individual departments will be made specifically responsible for each category of risk, ensuring effective risk management. In addition, an organizational structure will be established, including the Integrated Risk Management Council chaired by the president and CEO and the Operational Risk Management Council chaired by the director in charge of the department responsible for comprehensive risk management.

Risk management reports will be made to the Board of Directors on a regular basis, or as necessary.

(3) The following are risks to be managed at the Bank. When new risks arise, a department to handle them will be promptly established by the Board of Directors.

1) credit risk, 2) market risk, 3) liquidity risk, 4) operational risk, and 5) other risks that could have a serious impact on the Bank's business.

(4) In addition to establishing a Risk Management Committee, the Bank's affiliates will manage risks in a proper and comprehensive manner, and set up a system to report any issues related to risk management to the Bank. The Internal Audit Department of the Bank conducts auditing of the Bank's affiliates to assess their risk management.

4. System to ensure the efficient execution of duties by directors of the Bank and its affiliates

(1) Duties of the Bank will be executed centered on the Basic Policy and an Action Plan. A Management Plan will be created, and guidelines based on this plan will be established for each six-month period.

(2) Progress made in implementing these plans will be reported to the Board of Directors in a timely manner, and steps will be taken in response as needed.

(3) Items that should be taken up by the Board of Directors of the Bank will be clearly stated in regulations such as the Board of Directors Regulations, and important items will be discussed as necessary by the Management Council, which comprises managing directors or above and other related personnel, to ensure that issues are sufficiently examined. In addition, Regulations on Decision-Making Authority Related to Operations will stipulate the appropriate delegation of authority to subordinates based on such factors as the importance of the operation, making the directors' execution of duties more efficient.

(4) The Bank will reinforce collaboration with its affiliates and facilitate information sharing. In addition, the management of the Bank and representatives of its affiliates will exchange opinions on a regular basis in order to resolve various issues efficiently.

(5) The Bank will establish regulations for top management, organizations, risk management and others, and provide its affiliates with necessary information in order to have them create

their own systems efficiently in compliance with these regulations.

5. System to ensure that the execution of duties by employees of the Bank and its affiliates complies with laws, ordinances, and the Articles of Incorporation

(1) In addition to positioning compliance with laws and ordinances as one of our most important business responsibilities and establishing regulations such as the Code of Ethics and Compliance Policy, the Bank will establish a department to provide overall control. In addition, a Compliance Council, chaired by the president and CEO, will be created, and this council will be tasked with handling compliance-related issues.

(2) In addition to establishing a Compliance Committee, the Bank's affiliates will manage and operate in-house compliance system appropriately and set up a system to report any compliance violation to the Bank. The Internal Audit Department of the Bank conducts auditing of the Bank's affiliates regarding their compliance with laws, ordinances, and others.

(3) At the Bank and its affiliates, an in-house system will be created for reporting violations of laws and ordinances and other compliance-related issues, and a whistle-blower system that employs an independent lawyer to receive reports will be maintained. Efforts will be made to prevent or promptly detect problems such as violations of laws.

6. System to ensure appropriate operations of the corporate group, which is composed of the Bank and its affiliates

(1) An internal auditing agreement will be concluded with the Bank's affiliates, and operations are audited by the Internal Audit Department of the Bank to ensure proper business operations by the corporate group, which is centered on the Bank. Operations at affiliates will be audited through various activities, including appointing officers or employees of the Bank as officers of affiliates and having them attend the meeting of the Board of Directors of the affiliates.

(2) The management of the Bank and representatives of its affiliates will exchange opinions on a regular basis to prevent problems such as inappropriate transactions between the Bank and its affiliates.

(3) When engaging in transactions with the Bank's affiliates and other entities, steps will be taken to verify that the terms of the transaction conform to the arms-length principle.

(4) A whistle-blower system will be established at the Bank and all affiliates, making it possible for parties such as affiliate employees to make reports or seek advice.

(5) A system will be created to ensure the reliability of the financial reporting of the Group, centered on the Bank.

7. System to report matters related to the execution of duties by directors of the Bank's affiliates to the Bank

(1) By having officers of the Bank dispatched to its affiliates, the Bank will receive reports related to the execution of duties by directors of its affiliates at the meeting of the Board of Directors of the affiliates.

(2) The Bank will deliberate or request reports, on a regular basis or as necessary, to accurately understand business operation of its affiliates, pursuant to the Group Companies Management Regulation established by the Bank.

(3) The department undertaking overall control of the Bank's affiliates and individual departments responsible for each affiliate will monitor the status of affiliates in a timely and appropriate manner, and promptly report any matters deemed important to the management of the Bank, while taking necessary steps.

8. Items related to employees whose assignment to assist Audit & Supervisory Board Members of the Bank in their duties is requested by them

An Audit & Supervisory Board Members' Office will be created to assist the Audit & Supervisory Board Members in the performance of their duties, and at least one full-time employee will be assigned to work in that office. Upon obtaining the opinions of the Audit & Supervisory Board, decisions will be made on the positions and qualifications of employees to be assigned to engage in this work, and a roster of such employees will be created.

9. Ensuring the independence of the above employees from directors and the effectiveness of instructions given to those employees

The appointment, transfer, and evaluation of employees who assist the Audit & Supervisory Board Members in their duties will be subject to the approval of the Audit & Supervisory Board. The said employees will solely comply with instructions and orders given by the Audit & Supervisory Board Members.

10. System for officers and employees of the Bank and its affiliates to report to Audit & Supervisory Board Members of the Bank and a system for other reports to Audit & Supervisory Board Members

Officers and employees of the Bank and its affiliates and persons who received reports from them shall submit reports and provide information in response to requests from the Audit & Supervisory Board or individual Audit & Supervisory Board Members. The following are the main topics of the reports and information to be provided.

(1) Department activities related to creating the Bank's internal control system

(2) Activities of the Bank's affiliates

(3) Matters that may inflict a significant loss on the Bank and its affiliates

- (4) Significant accounting policies and standards and changes to them
- (5) Content of disclosed earnings, projections, and other important disclosure materials
- (6) Serious violations of the laws and ordinances
- (7) Operation of the whistle-blower system and notifications
- (8) Circulation of documents such as draft proposals and the minutes of important conference/committee meetings
- (9) Other items deemed necessary by the Audit & Supervisory Board Members

11. System to ensure that a person who made a report in accordance with the preceding paragraph does not receive unfair treatment on the grounds of making such report

The Bank and its affiliates prohibit a dismissal or any other disadvantageous treatment of the person who made a report in accordance with the preceding paragraph on the grounds of making such report, etc. and take appropriate steps to ensure that such person will not receive unfair treatment.

12. Matters related to treatment of expenses incurred in the execution of duties by Audit & Supervisory Board Members

In the event that Audit & Supervisory Board Members made a request for reimbursement of expenses incurred in the execution of their duties, it will be granted unless the expenses are proved to be unnecessary to the execution of their duties.

13. System to ensure effective audits by Audit & Supervisory Board Members

The representative director will regularly meet and cooperate with the Audit & Supervisory Board Members to ensure the effectiveness of audits, and will regularly exchange opinions on management problems and progress in auditing to ensure high accuracy.

Compliance System

Recognizing that the survival of financial institutions depends on trust, we put top priority on earning the firm trust of the general public.

We are further strengthening our compliance system under our 14th Medium-Term Management Plan through our policy which is designed to “promote awareness of the crucial importance of compliance among our staff.”

- 1) Earn the firm trust of the general public through the maintenance of high corporate ethical standards and awareness of the importance of legal compliance;
- 2) Promote awareness of the crucial importance of compliance among our staff; and
- 3) Raise standards of compliance rigor still higher.

To further enhance the compliance system that we have built to date, we formulate and implement a compliance program each fiscal year. Specifically, all departments regularly hold study meetings on compliance, and we have implemented curriculums related to compliance for individual training programs in order to boost the awareness of compliance. In addition, each department conducts periodic self-checks according to its specific responsibilities. This is part of our initiative to ingrain a compliance-oriented corporate culture.

Organizational Structure

Compliance Council

Chaired by the president and CEO, consisting of managing directors and the general managers from relevant divisions, the Compliance Council examines, discusses, and issues directives concerning matters of compliance.

Compliance Office (Risk Management Division)

As the entity responsible for overseeing compliance, the Compliance Division promotes compliance programs and serves as the secretariat for the Compliance Council.

Inspection Section (Internal Audit Division)

The section conducts audits and other investigations related to the compliance conditions in each division.

Compliance at Each Division

Compliance officers are appointed in each of the divisions to check the day-to-day compliance of those divisions.

Customer Protection Management System

The Bank set up a Customer Protection Management Policy in September 2007 to develop and establish a system to ensure customer protection. Under the Customer Protection Management Policy, we have clearly stated protection measures that we had taken as part of compliance and risk management. We are focusing more heavily on customer-oriented management. The purpose of the policy is to improve the protection and convenience of customers through the following initiatives:

- (i) Providing appropriate information and explanations on products and services for customers
- (ii) Responding properly to requests, consultation, inquiries and complaints from customers
- (iii) Appropriately managing customer information
- (iv) Properly managing outsourced operations
- (v) Properly managing of conflicts of interest so avoid unfair detriment to the interests of our customers

Information Security, Management of Customer Information

In line with the top priority that we assign to ensuring the confidentiality of our customers' personal data, information security risk is addressed by the Bank's Information Security Management Rules. We have publicly announced our Declaration of Personal Information Protection (Privacy Policy).

As stipulated in the aforementioned Security Management Rules, we have also appointed a chief information officer at the Bank's headquarters and an information officer in each department and branch. We are making every effort to educate employees to bolster their awareness of security issues so that we can ensure the maximum degree of protection for customer data in daily operations.

Risk Management

The importance of risk management has grown as the risks confronting financial institutions have become more complex and diverse. Recognizing risk management as crucial for safe and sound operations, we have established a Comprehensive Risk Management Policy and other policies and rules relating to risk management that enable an appropriate and prompt response to various types of risk.

We have established the Risk Management Division to step up our commitment in this area. We aim to further strengthen our risk management system through use of the PDCA cycle,

by laying down policy (planning), creating internal rules and organizations (doing), assessing results of these measures (checking) and making improvements where needed (acting).

In addition, to ensure that our risk management mechanisms function effectively with regard to sections within the Group subject to auditing (the Bank's head office divisions, branches and consolidated affiliates), regular, planned, on-site audits of such departments are carried out by staff of the Internal Audit Division, which is independent from business operation departments. In this way the Bank verifies the effectiveness of its risk management systems.

Comprehensive Risk

The Bank has formulated a comprehensive risk management framework by determining a Comprehensive Risk Management Policy and Rules.

The Bank's risk management does not stop at managing various risks individually, but extends a step ahead to control the total amount of risks to keep it within the range of distributable capital, which is defined as "core capital (full implementation basis) less allowance for doubtful accounts," through the risk quantification using statistical methods, thereby enforcing a comprehensive risk management aiming at ensuring soundness of management.

We adopt a flexible approach to required responses by getting the current state of such comprehensive risks checked by the Integrated Risk Management Council, which has monthly meetings and reports directly to the Board of Directors.

Credit Risk

To appropriately adapt to changes in the credit risk in relation to assets held by the Bank, and to ensure stable profitability and maintain sound operations, we conduct management appropriately with reference to our Credit Risk Management Policies and Credit Risk Management Rules.

In order to objectively determine a borrower company's credit state and its capacity to repay loans, we perform a credit rating system in a timely manner and reflect the result of the credit rating in our credit risk management. More specifically, we endeavor to maintain a sound asset base by implementing our own assessment of loan assets and by making appropriate provision for possible loan losses and write-offs based on the credit rating system.

Meanwhile, the credit rating system enables a quantification of the credit risk, controls concentration of risk with particular borrowers or industries, and further ensures profits that are balanced by credit costs, and thereby enables the Bank to improve its credit portfolio.

Regarding examination of loan applications, we have clearly separated the sales promotion and credit screening functions and undertake strict reviews and management under a policy of screening by borrower business sector. Individual cases are screened by verifying various aspects including the use of funds, income and expenditure plans, and investment outcomes, and by carefully examining a borrower's resources and plans for repayment.

Market Risk

For market risk, the Market Risk Management Rules have been established, which stipulates the policies for monitoring, control and mitigation of the risk, along with specific arrangements.

The Risk Management Division manages interest rate risk related to deposits and loans, as well as the risk associated with securities, derivatives and other markets. Our current positions, unrealized gains/losses and risk indicators such as BPV and VaR are measured and evaluated on a daily or monthly basis and reported to management. From the perspective of managing assets and liabilities together, we hold monthly Integrated Risk Management Council meetings, forecast interest rates, stock prices and exchange rates, as a set of measures to enable an appropriate response to risk.

Liquidity Risk

We manage liquidity risk through our Liquidity Risk Management Policies and Liquidity Risk Management Rules and regard stable cash flows as the primary objective. Moreover, we have in place a system (Liquidity Risk Contingency Plan) that can respond to a wide variety of circumstances promptly and appropriately.

Operational Risk

We have drawn up an Operational Risk Management Policies and Operational Risk Management Rules, with separate provisions for administrative risk, system risk, legal risk, personnel risk, fixed asset risk and reputational risk. We implement necessary measures for required responses by getting the current management status of such risks checked regularly by the Operational Risk Management Council and reported to the Board of Directors. For the important categories of administrative and system risk, we have drawn up the following sub-policies and procedures.

[Administrative Risk]

We manage administrative risk through our own Administrative Risk Management Policies and Administrative Risk Management Rules. While adapting to the growing diversification and complexity of banking operations, our administration has become more rigorous in an effort to retain and strengthen the trust of our customers.

[System Risk]

System risk refers to the risk of incurring a loss due to computer system failure, malfunction and other errors or system flaws and other deficiencies, as well as the risk of incurring a loss due to the improper use of computers. This includes "cyber security risk" that threatens the safety of computer systems and computer networks as a result of cyber attacks. We have established a framework that swiftly responds to system failure through our Computer System Failure Action Rules and Center Failure Rules.

To prepare for contingencies that cannot be dealt with using our conventional risk management mechanisms, we have compiled a Business Continuity Plan, and have taken measures that would enable us to continue major business operations even under emergency conditions.

At Juroku Bank, we recognize the importance of integrated risk management, and we will continue working to enhance the sophistication of our risk management system.
