PROFILE

The Juroku Bank, Ltd., has its business base in Gifu and Aichi prefectures, the industrial center of the Chubu region of Japan. During the over 130 years since its founding in 1877, it has played a pivotal role as a leading financial institution in its area.

We will continue to follow our philosophy of “serving our community by fulfilling our social mission as a financial institution.” We will also pursue reforms by staying open-minded, managing our operations rationally and steadily, creating a strong management style through stronger earnings power, and improving our personnel and organization.

The head office of the Bank is located in Gifu prefecture. The Bank has 161 domestic branch offices, mainly in Gifu and Aichi prefectures, as well as representative offices in Hong Kong, Shanghai, Singapore, and Bangkok. On a consolidated basis, as of the end of March 2016, the Bank had total deposits of ¥5,250.1 billion (US\$46,593 million), total assets of ¥6,209.8 billion (US\$55,110 million), and a capital ratio of 10.34% based on domestic standards.

■ We are committed to
 ■ our work to establish
 ■ “engagement first” with
 ■ our customers.

Yukio Murase President and CEO

Looking at the operating environment for financial institutions, there are signs of prolonged low interest rates due to the introduction of the negative interest rate policy in addition to increasingly fierce competition beyond business categories. In addition, with the backdrop of socioeconomic structural changes such as aging society and population decline, efforts to revitalize regional economies are vital, where regional financial institutions are required to demonstrate their financial intermediation functions, in addition to playing an active role in local communities.

Under such circumstances, we must establish a policy of “engagement first,” which gives first priority to the cornerstone activity of strengthening our mutual ties with our customers and helping them to achieve their dreams, as well contributing to their development. At the same time, we must work with customers and local communities to achieve sustainable growth.

FY2016 is the year we complete our “13th Mid-Term Management Plan ~ All For Your Smile: Providing Wholehearted Services,” and we are committed to striving towards the achievement of our targets.

I look forward to receiving the continued support and encouragement of all our stakeholders.

July 2016
 Yukio Murase
 President and CEO

■ The 13th Medium-term Management Plan

We are implementing “The 13th Medium-Term Management Plan ~ All For Your Smile: Providing Wholehearted Services,” which runs from FY2014 to FY2016. The plan includes the following core policies: “reform awareness and actions for uncompromising focus on the customer”; “return to our roots as a regional financial institution”; and “growth strategy centered on strategy for Aichi prefecture.” The plan builds on these core policies to layout the following seven basic strategies: “improvement of the quality of services by focusing on the customer”; “region-specific strategies”; “further promotion of community-based financial services”; “enhancement of capital management capabilities”; “optimization of allocation of business resources”; “utilization and development of human resources”; and “enhancement of fiscal soundness and management control structure.”

FY2016 Year-end Targets

Growth potential (customer base)		Earnings capability	Financial soundness	
Deposit balance	Number of retail borrowers *1	Net income	Core capital ratio (full implementation basis) *2	Ratio of credit cost to total loans *3
¥5,600 billion	100,000 or more	¥10 billion	8.8% or more	Less than 0.2%

*1 Number of retail borrowers = SME borrowers (including proprietors) + Number of housing loans and apartment loans (based on the Bank’s standards)

*2 Core capital ratio (full implementation basis) = $\frac{\text{Core capital (before transitional arrangement)}}{\text{Risk assets (before transitional arrangement)}}$

*3 Ratio of credit cost to total loans = $\frac{\text{Credit cost}}{\text{Average loan balance}}$

Based on this plan, we will be able to respond more effectively to problems that the Bank faces. Details are outlined below.

We will be committed to implementing the following basic strategies under the management plan, in an effort to effectively overcome the challenges that surround the Group.

Basic Strategies

•Improvement of the quality of services by focusing on the customer

We will enhance our contacts with our customers, while enhancing our Retail Division by offering products and services that meet a wide range of needs according to the state of our customers’ assets and their life stages. We will also improve our level of service and streamline operations by reforming operations from our customers’ perspective.

•Region-specific strategies

In Gifu prefecture, we will further enhance customer relations by offering high-quality solutions, and ensure an overwhelmingly large share of the market in the prefecture. In Aichi prefecture, we will expand our branch network, enhance our sales promotion structure, and further pursue our policy of becoming a local institution.

•Further promotion of community-based financial services

We will further promote community-based financial services, including ensuring a swift, smooth supply of financing and leveraging our consulting function in accordance with our customers’ life cycles, in order to realize the sound development of the regional economy.

•Enhancement of capital management capabilities

We will enhance capital management capabilities through dynamic management of marketable securities, as well as active incorporation of new earnings opportunities.

•Optimization of allocation of business resources

We will make effective use of our limited business resources, including implementing effective cost controls and strengthening our medium- to long-term ICT strategy.

•Utilization and development of human resources

We will improve employee motivation by compensating employees in accordance with their skills and suitability, and focusing on developing human resources.

•Enhancement of fiscal soundness and management control structure

We will enhance our financial standing by improving the quality of our capital and assets, strengthen our management control structure, and ensure thorough legal compliance and customer protection.

Corporate Governance

Basic Policy

At Juroku Bank, we believe that retaining the trust of our stakeholders by conducting all of our activities in a sound manner is vital to our role as a financial institution. Therefore, we place the highest priority on building a solid organizational structure and establishing systems that continually reinforce corporate governance.

In association with the entry into effect of the Companies Act, we established a Basic Policy related to the Establishment of an Internal Control System at a meeting of the Board of Directors held on May 24, 2006. Since that time, we have revised this basic policy as necessary and in a timely manner, and have endeavored to develop and continuously refine the system to ensure the appropriate execution of business at the Bank and the corporate group comprising the Bank and its subsidiaries. Under this basic policy, we will pursue initiatives to enhance corporate governance.

Progress Thus Far

The Board of Directors comprises nine members including two Outside Directors (as of June 24, 2016) and it is held at least once a month, in principle, to deliberate and decide matters stipulated in laws and regulations and important management issues, and it also monitors directors' conduct of business operations by having each director report his/her own execution of duties at least once every three months, pursuant to Article 363, Paragraph 2 of the Companies Act. Additionally, in order to further ensure the transparency and fairness of the Board of Directors' decision-making activities, a Management Advisory Council has been established as an advisory body to the Board of Directors.

The Bank has adopted the executive officer system and ensures that executive officers appointed by the Board of Directors responsibly execute the business operations of the sections in their charge. The adoption of the executive officer system allows the Board of Directors to take on the functions of management supervision in a more effective manner, while also enabling quick decision making by the management team. In terms of important matters affecting the daily conduct of business operations, a Management Council, comprising the president and CEO, deputy president and director and managing executive officers, has been established to enable quick and bold decision making.

Furthermore, an Operational Audit Committee has been established to enhance the supervisory functions of the Board of Directors on the execution of business operations, thereby further enhancing the corporate governance system.

The Audit & Supervisory Board comprises four Audit & Supervisory Board Members, including two Outside Audit & Supervisory Board Members and two Standing Audit & Supervisory Board Members (as of June 24, 2016). To support the Audit & Supervisory Board Members, we have established the Audit & Supervisory Board Members' Office, which monitors the execution of business operations objectively and ensures appropriate auditing functions. The Audit & Supervisory Board is held at least once a month, in principle.

With regard to internal controls, the Audit & Inspection Division conducts internal audits, and at least once per year seeks outside opinions regarding the development and management of the internal control system.

Based on these objective opinions, we work to further improve the internal control system. Moreover, to reinforce the compliance system, we have established a whistle-blower system and have improved the effectiveness of the system by using an external lawyer as the point of contact.

With respect to the risk control system, we have established the Integrated Risk Management Council, Operational Risk Management Council and Compliance Council. These committees discuss risk management issues both on a regular basis and when necessary. At these meetings, the appropriateness of operations is reviewed and risk management is applied to minimize loss due to unforeseen circumstances. The Integrated Risk Management Council and the Compliance Council meet at least once per month, while the Operational Risk Management Council meets at least once every 6 months. We have also signed consultation agreements with six lawyers, who provide advice on legal matters and perform a variety of legal checks when necessary.

The Bank's accounts are audited by the independent auditing firm Deloitte Touche Tohmatsu LLC (as of June 30, 2016). This firm provides accurate audits on the basis of appropriate information disclosure.

Going forward, we will work to further enhance our corporate governance standards and ensure the soundness of our ethical conduct and financial position.

Basic Policy on Strengthening Internal Control System

We are currently making efforts to build an internal control system based on the policies described below.

1. System to ensure that the execution of duties by directors of the Bank and its affiliates comply with all relevant laws, ordinances, regulations, and the Bank's Articles of Incorporation

(1) Our Basic Policy establishes the Bank's commitment to serve local communities by fulfilling its mission as a financial institution, and to seek business growth through sound practices founded on a broad and rational perspective.

(2) To implement this policy, directors and executive officers of the Bank are responsible for the establishment of various standards including the Code of Ethics and Compliance Policy, and for ensuring that business is conducted in accordance with these standards and that laws, ordinances, and the Articles of Incorporation are adhered to. In addition, directors are responsible for steadfastly confronting any anti-social forces that pose a threat to social order and safety; thereby directors consolidate a system to sever all ties to these forces.

(3) The Bank's affiliates make best efforts to pursue legitimate and fair business practices that respond to social obligations, based on their own basic policy and management philosophy that are adequate for the nature and scale of their business. In addition, the affiliates are responsible for the establishment of the Code of Ethics and Compliance Policy to ensure that business is conducted in accordance with laws and ordinances as well as social norms.

2. System for storage and management of information related to the execution of duties by directors of the Bank

To ensure efficient verification of proper business practices, regulations will be created and followed on the handling and control of information and documents related to business operations (including electronic records); adherence to these regulations will be monitored, and regulations will be revised when necessary.

In addition, a system will be established to enable directors and Audit & Supervisory Board Members to view this information and the relevant documents when necessary.

3. Risk management regulations and other structures related to risk of loss at the Bank and its affiliates

(1) The Bank positions the risk management as an important duty to ensure the soundness and safety of business, and regulations related to each type of risk, including a Comprehensive Risk Management Regulation, will be established in order to manage risks associated with the business of the Bank and its affiliates in an exhaustive and comprehensive manner. Efforts will be made to appropriately improve the measurement, evaluation, and management of risk by following these regulations.

An independent third party will regularly evaluate the Bank's management of major risks, and the Bank will continually work to improve risk management level evaluations.

(2) In addition to designating one department to comprehensively manage risk, individual departments will be made specifically responsible for each category of risk, ensuring effective risk management. In addition, an organizational structure will be established, including the Integrated Risk Management Council chaired by the president and CEO and the Operational Risk Management Council chaired by the director in charge of the department responsible for comprehensive risk management. Risk management reports will be made to the Board of Directors on a regular basis, or as necessary.

(3) The following are risks to be managed at the Bank. When new risks arise, a department to handle them will be promptly established by the Board of Directors.

1) credit risk, 2) market risk, 3) liquidity risk, 4) operational risk, and 5) other risks that could have a serious impact on the Bank's business.

(4) In addition to establishing a Risk Management Committee, the Bank's affiliates will manage risks in a proper and comprehensive manner, and set up a system to report any issues related to risk management to the Bank. The Internal Audit Department of the Bank conducts auditing of the Bank's affiliates to assess their risk management.

4. System to ensure the efficient execution of duties by directors of the Bank and its affiliates

(1) Duties of the Bank will be executed centered on the Basic Policy and an Action Plan. A Management Plan will be created, and guidelines based on this plan will be established for each six-month period.

(2) Progress made in implementing these plans will be reported to the Board of Directors in a timely manner, and steps will be taken in response as needed.

(3) Items that should be taken up by the Board of Directors of the Bank will be clearly stated in regulations such as the Board of Directors Regulations, and important items will be discussed as necessary by the Management Council, which comprises managing directors or above and other related personnel, to ensure that issues are sufficiently examined. In addition, Regulations on Decision-Making Authority Related to Operations will stipulate the appropriate delegation of authority to subordinates based on such factors as the importance of the operation, making the directors' execution of duties more efficient.

(4) The Bank will reinforce collaboration with its affiliates and facilitate information sharing. In addition, the management of the Bank and representatives of its affiliates will exchange opinions on a regular basis in order to resolve various issues efficiently.

(5) The Bank will establish regulations for top management, organizations, risk management and others, and provide its affiliates with necessary information in order to have them create

their own systems efficiently in compliance with these regulations.

5. System to ensure that the execution of duties by employees of the Bank and its affiliates complies with laws, ordinances, and the Articles of Incorporation

(1) In addition to positioning compliance with laws and ordinances as one of our most important business responsibilities and establishing regulations such as the Code of Ethics and Compliance Policy, the Bank will establish a department to provide overall control. In addition, a Compliance Council, chaired by the president and CEO, will be created, and this council will be tasked with handling compliance-related issues.

(2) In addition to establishing a Compliance Committee, the Bank's affiliates will manage and operate in-house compliance system appropriately and set up a system to report any compliance violation to the Bank. The Internal Audit Department of the Bank conducts auditing of the Bank's affiliates regarding their compliance with laws, ordinances, and others.

(3) At the Bank and its affiliates, an in-house system will be created for reporting violations of laws and ordinances and other compliance-related issues, and a whistle-blower system that employs an independent lawyer to receive reports will be maintained. Efforts will be made to prevent or promptly detect problems such as violations of laws.

6. System to ensure appropriate operations of the corporate group, which is composed of the Bank and its affiliates

(1) An internal auditing agreement will be concluded with the Bank's affiliates, and operations are audited by the Internal Audit Department of the Bank to ensure proper business operations by the corporate group, which is centered on the Bank. Operations at affiliates will be audited through various activities, including appointing officers or employees of the Bank as officers of affiliates and having them attend the meeting of the Board of Directors of the affiliates.

(2) The management of the Bank and representatives of its affiliates will exchange opinions on a regular basis to prevent problems such as inappropriate transactions between the Bank and its affiliates.

(3) When engaging in transactions with the Bank's affiliates and other entities, steps will be taken to verify that the terms of the transaction conform to the arms-length principle.

(4) A whistle-blower system will be established at the Bank and all affiliates, making it possible for parties such as affiliate employees to make reports or seek advice.

(5) A system will be created to ensure the reliability of the financial reporting of the Group, centered on the Bank.

7. System to report matters related to the execution of duties by directors of the Bank's affiliates to the Bank

(1) By having officers of the Bank dispatched to its affiliates, the Bank will receive reports related to the execution of duties by directors of its affiliates at the meeting of the Board of Directors of the affiliates.

(2) The Bank will deliberate or request reports, on a regular basis or as necessary, to accurately understand business operation of its affiliates, pursuant to the Group Companies Management Regulation established by the Bank.

(3) The department undertaking overall control of the Bank's affiliates and individual departments responsible for each affiliate will monitor the status of affiliates in a timely and appropriate manner, and promptly report any matters deemed important to the management of the Bank, while taking necessary steps.

8. Items related to employees whose assignment to assist Audit & Supervisory Board Members of the Bank in their duties is requested by them

An Audit & Supervisory Board Members' Office will be created to assist the Audit & Supervisory Board Members in the performance of their duties, and at least one full-time employee will be assigned to work in that office. Upon obtaining the opinions of the Audit & Supervisory Board, decisions will be made on the positions and qualifications of employees to be assigned to engage in this work, and a roster of such employees will be created.

9. Ensuring the independence of the above employees from directors and the effectiveness of instructions given to those employees

The appointment, transfer, and evaluation of employees who assist the Audit & Supervisory Board Members in their duties will be subject to the approval of the Audit & Supervisory Board. The said employees will solely comply with instructions and orders given by the Audit & Supervisory Board Members.

10. System for officers and employees of the Bank and its affiliates to report to Audit & Supervisory Board Members of the Bank and a system for other reports to Audit & Supervisory Board Members

Officers and employees of the Bank and its affiliates and persons who received reports from them shall submit reports and provide information in response to requests from the Audit & Supervisory Board or individual Audit & Supervisory Board Members. The following are the main topics of the reports and information to be provided.

(1) Department activities related to creating the Bank's internal control system

(2) Activities of the Bank's affiliates

(3) Matters that may inflict a significant loss on the Bank and its affiliates

(4) Significant accounting policies and standards and changes to them

(5) Content of disclosed earnings, projections, and other important disclosure materials

(6) Serious violations of the laws and ordinances

(7) Operation of the whistle-blower system and notifications

(8) Circulation of documents such as draft proposals and the minutes of important conference/committee meetings

(9) Other items deemed necessary by the Audit & Supervisory Board Members

11. System to ensure that a person who made a report in accordance with the preceding paragraph does not receive unfair treatment on the grounds of making such report

The Bank and its affiliates prohibit a dismissal or any other disadvantageous treatment of the person who made a report in accordance with the preceding paragraph on the grounds of making such report, etc. and take appropriate steps to ensure that such person will not receive unfair treatment.

12. Matters related to treatment of expenses incurred in the execution of duties by Audit & Supervisory Board Members

In the event that Audit & Supervisory Board Members made a request for reimbursement of expenses incurred in the execution of their duties, it will be granted unless the expenses are proved to be unnecessary to the execution of their duties.

13. System to ensure effective audits by Audit & Supervisory Board Members

The representative director will regularly meet and cooperate with the Audit & Supervisory Board Members to ensure the effectiveness of audits, and will regularly exchange opinions on management problems and progress in auditing to ensure high accuracy.

Compliance System

Recognizing that the survival of financial institutions depends on trust, we put top priority on earning the firm trust of the general public. To this end, we embrace high corporate ethical standards and promote extensive awareness of the importance of legal compliance. Accordingly, in April 2012, we newly set up a legal office within the Compliance Management Division in order to enhance our compliance system. With the support of the new section, we are equipped with an appropriate structure to comply, more than ever, with social requirements.

We are further strengthening our compliance system under our 13th Medium-Term Management Plan through policies which are designed to:

- 1) Earn the firm trust of the general public through the maintenance of high corporate ethical standards and awareness of the importance of legal compliance;
- 2) Promote awareness of the crucial importance of compliance among our staff; and
- 3) Raise standards of compliance rigor still higher.

To further enhance the compliance system that we have built to date, we formulate and implement a compliance program each fiscal year. All departments hold monthly study meetings to foster knowledge of legal issues and increase compliance-related awareness. We have also prepared curriculums related to compliance for individual training programs in order to boost the knowledge and awareness of compliance among our employees. In addition, each department conducts periodic self-checks according to its specific responsibilities. This is part of our initiative to ingrain a compliance-oriented corporate culture.

Organizational Structure

Compliance Council

Chaired by the president and CEO, consisting of managing directors and the general managers from relevant divisions, the Compliance Council examines, discusses, and issues directives concerning matters of compliance.

Compliance Division

As the entity responsible for overseeing compliance, the Compliance Division promotes compliance programs and serves as the secretariat for the Compliance Council.

Inspection Section (Internal Audit Division)

The section conducts audits and other investigations related to the compliance conditions in each division.

Compliance at Each Division

Compliance officers are appointed in each of the divisions to check the day-to-day compliance of those divisions.

Customer Protection Management System

The Bank set up a Customer Protection Management Policy in September 2007 to develop and establish a system to ensure customer protection. Under the Customer Protection Management Policy, we have clearly stated protection measures that we had taken as part of compliance and risk management. We are focusing more heavily on customer-oriented management. The purpose of the policy is to improve the protection and convenience of customers through the following initiatives:

- (i) Providing appropriate information and explanations on products and services for customers
- (ii) Responding properly to requests, consultation, inquiries and complaints from customers
- (iii) Appropriately managing customer information
- (iv) Properly managing outsourced operations
- (v) Properly managing of conflicts of interest so avoid unfair detriment to the interests of our customers

Information Security, Management of Customer Information

In line with the top priority that we assign to ensuring the confidentiality of our customers' personal data, information security risk is addressed by the Bank's Information Security Management Rules. We have publicly announced our Declaration of Personal Information Protection (Privacy Policy).

As stipulated in the aforementioned Security Management Rules, we have also appointed a chief information officer at the Bank's headquarters and an information officer in each department and branch. We are making every effort to educate employees to bolster their awareness of security issues so that we can ensure the maximum degree of protection for customer data in daily operations.

Risk Management

The importance of risk management has grown as the risks confronting financial institutions have become more complex and diverse. Recognizing risk management as crucial for safe and sound operations, we have established "Basic Policy of Risk Management" contained in our 13th Medium-Term Management Plan. In addition, we have established Comprehensive Risk Management Policy and other policies and rules relating to risk management that enable an appropriate and prompt response to various types of risk.

We have established the Risk Management Division to step

up our commitment in this area. We aim to further strengthen our risk management system through use of the PDCA cycle, by laying down policy (planning), creating internal rules and organizations (doing), assessing results of these measures (checking) and making improvements where needed (acting).

In addition, to ensure that our risk management mechanisms function effectively with regard to sections within the Group subject to auditing (the Bank's head office divisions, branches and consolidated affiliates), regular, planned, on-site audits of such departments are carried out by staff of the Internal Audit Division, which is independent from business operation departments. In this way the Bank verifies the effectiveness of its risk management systems.

Basic Policy of Risk Management (13th Medium-Term Management Plan)

•Risk Management

- 1 Implement appropriate risk management to ensure that risk taking is handled in line with the Bank's financial strength.
- 2 Enhance the ability of risk analysis to support appropriate risk-taking.
- 3 Development of risk management system in compliance with capital adequacy regulation.
- 4 Strengthen credit risk management.

Comprehensive Risk

The Bank has formulated a comprehensive risk management framework by determining a Comprehensive Risk Management Policy and Rules.

The Bank's risk management does not stop at managing various risks individually, but extends a step ahead to control the total amount of risks to keep it within the range of distributable capital, which is defined as "core capital (full implementation basis) less allowance for doubtful accounts," through the risk quantification using statistical methods, thereby enforcing a comprehensive risk management aiming at ensuring soundness of management.

We adopt a flexible approach to required responses by getting the current state of such comprehensive risks checked by the Integrated Risk Management Council, which has monthly meetings and reports directly to the Board of Directors.

Credit Risk

To appropriately adapt to changes in the credit risk in relation to assets held by the Bank, and to ensure stable profitability and maintain sound operations, we conduct management appropriately with reference to our Credit Risk Management Policies and Credit Risk Management Rules.

In order to objectively determine a borrower company's credit state and its capacity to repay loans, we perform a credit rating system in a timely manner and reflect the result of the credit rating in our credit risk management. More specifically, we endeavor to maintain a sound asset base by implementing our own assessment of loan assets and by making appropriate provision for possible loan losses and write-offs based on the credit rating system.

Meanwhile, the credit rating system enables a quantification of the credit risk, controls concentration of risk with particular borrowers or industries, and further ensures profits that are balanced by credit costs, and thereby enables the Bank to improve its credit portfolio.

Regarding examination of loan applications, we have clearly separated the sales promotion and credit screening functions and undertake strict reviews and management under a policy of screening by borrower business sector. Individual cases are screened by verifying various aspects including the use of funds, income and expenditure plans, and investment outcomes, and by carefully examining a borrower's resources and plans for repayment.

Market Risk

For market risk, the Market Risk Management Rules have been established, which stipulates the policies for monitoring, control and mitigation of the risk, along with specific arrangements.

The Risk Management Division manages interest rate risk related to deposits and loans, as well as the risk associated with securities, derivatives and other markets. Our current positions, unrealized gains/losses and risk indicators such as BPV and VaR are measured and evaluated on a daily or monthly basis and reported to management. From the perspective of managing assets and liabilities together, we hold monthly Integrated Risk Management Council meetings, forecast interest rates, stock prices and exchange rates, as a set of measures to enable an appropriate response to risk.

Liquidity Risk

We manage liquidity risk through our Liquidity Risk Management Policies and Liquidity Risk Management Rules and regard stable cash flows as the primary objective. Moreover, we have in place a system (Liquidity Risk Contingency Plan) that can respond to a wide variety of circumstances promptly and appropriately.

Operational Risk

We have drawn up an Operational Risk Management Policies and Operational Risk Management Rules, with separate provisions for administrative risk, system risk, legal risk, personnel risk, fixed asset risk and reputational risk. We implement necessary measures for required responses by getting the current management status of such risks checked regularly by the Operational Risk Management Council and reported to the Board of Directors. For the important categories of administrative and system risk, we have drawn up the following sub-policies and procedures.

【Administrative Risk】

We manage administrative risk through our own Administrative Risk Management Policies and Administrative Risk Management Rules. While adapting to the growing diversification and complexity of banking operations, our administration has become more rigorous in an effort to retain and strengthen the trust of our customers.

【System Risk】

System risk is managed through the Bank's System Risk Management Policies and System Risk Management Rules. We have established a framework that swiftly responds to system failure through our Computer System Failure Action Rules and Center Failure Rules.

To prepare for contingencies that cannot be dealt with using our conventional risk management mechanisms, we have compiled a Business Continuity Plan, and have taken measures that would enable us to continue major business operations even under emergency conditions.

At Juroku Bank, we recognize the importance of integrated risk management, and we will continue working to enhance the sophistication of our risk management system.

The Bank provides information about the status of its assets in three different ways. First, we conduct self assessment to calculate appropriate write-offs and reserves by classifying borrowers according to their financial soundness. Second, disclosure based on "The Financial Reconstruction Law" is used to classify prob-

lem assets. Third, we disclose the value of Risk-Monitored Loans based on the Banking Law, which excludes non-loan assets such as foreign exchange, accrued interest and advance payments.

Asset Self-Assessment / Assets Disclosed under the Financial Reconstruction Law / Risk-Monitored Loans under the Banking Law (as of March 31, 2016)

(Non-consolidated)

Borrower category Balances of credits	Classification For all assets			
	I	II	III	IV
Legally bankrupt borrowers 3.2 [0.9]	2.7	0.5	— (0.1)	— (2.3)
Virtually bankrupt borrowers 11.5 [6.0]	9.4	2.0	— (1.1)	— (5.5)
Potentially bankrupt borrowers 83.7	48.1	20.5	15.0 (18.3)	
Borrowers requiring caution				
Substandard borrowers 6.8	0.9	6.0		
Others*1 455.2	161.1	294.2		
Normal borrowers 3,426.4	3,426.4			
Total 3,986.9 [3,979.0]	3,648.6	323.2	15.0 (19.5)	— (7.8)

*1 Borrowers requiring caution, excluding substandard borrowers
*2 Portion of claims secured by collateral or guarantees

Assets disclosed under the Financial Reconstruction Law and coverage of the claims For all claims			
Classification Balances of claims	Portion of claims secured*2	Reserves	Coverage ratio
Bankrupt and quasi-bankrupt assets 14.7 [6.9]	5.6	9.0	100.0%

Risk-monitored loans Loans only (no other type of credit included)	
Classification	Loan balances
Bankrupt loans	3.1 [0.8]
Non-accrual loans	94.7 [89.2]
Past due loans (3 months or more)	0.0
Restructured loans	5.4
Total	103.4 [95.6]

Ratio of risk-monitored loans to total loans

Figures in brackets are those after application of partial charge-offs (direct deduction).
2.6%
[2.4%]

Notes:

1. Amounts in asset self-assessment and claims disclosed under the Financial Reconstruction Law and the coverage of claims are rounded to the nearest 100 million yen. Amounts in risk-monitored loans are rounded down to the nearest 100 million yen. Figures for ratios are rounded down to the first decimal place.
2. All credit items = Loans + Customers' liabilities for acceptances and guarantees + Bonds issued through private placements covered by guarantees of the Bank + Foreign exchanges + Suspense payments with a similar nature to loans + Accrued interest.

3. Amounts in asset self-assessment are those after deduction of specific reserves for possible loan losses, and the amounts in parentheses are specific reserves for each classification.
4. The Bank does not implement partial charge-offs (direct deduction). If partial charge-offs were implemented, relevant figures would decline to the figures shown in brackets.

Activities to Revitalize the Regional Economy

Environmental Conservation Activities

The Juroku Bank not only engages in its own environmental conservation activities but also supports the various environmental activities of its customers.

Formulation of Environmental Policy

In April 2013, we formulated a new "Environmental Policy" for the Juroku Bank Group as a whole.

This "Environmental Policy" is based on our "Basic Philosophy" and "Code of Conduct." All employees at our headquarters and branches are committed to meeting targets for overcoming environmental protection challenges in accordance with this policy.

Introduction of two "MIRAI" Fuel Cell Cars

In July 2015, Toyota Motor Corporation's "MIRAI" fuel cell vehicle was delivered from a dealer in Gifu Prefecture to Juroku Bank as the dealer's very first delivery, and a delivery ceremony was held at the Head Office building. "MIRAI" runs on electricity generated using hydrogen. This fuel cell vehicle boasts excellent environmental performance, including the fact that it does not produce carbon dioxide while running, and was introduced as part of our initiatives undertaken in consideration of the environment.

Juroku Bank's Support for Overseas Business Development

Our customers are responding to the growth of emerging markets in Asia with an increase in initiatives to develop overseas sales routes and move production to overseas markets. With our overseas support structure comprising overseas representative offices at 4 locations including Hong Kong, Shanghai, Singapore, and Bangkok, and 13 cooperating financial institutions across 9 countries, we will further strengthen our initiatives to connect our customers and overseas markets. (As of March 31, 2016)

Business Alliance with the Hong Kong Trade Development Council

In January 2016, Juroku Bank concluded an "Agreement of Mutual Cooperation" with the Hong Kong Trade Development Council for the purpose of supporting customer development of overseas sales routes and to provide trade and investment information. Hong Kong functions as a gateway to Asian markets, including mainland China, and receives many exports from

Japan, such as agricultural and marine products, and is gaining attention as one of the promising markets for Japanese foods and products.

Assistant Executive Director Clare Wong of the Hong Kong Trade Development Council and President and CEO Murase

Through collaboration with the Council, we will support the creation of business opportunities overseas.

Business Alliance with the Vietnamese Ministry of Planning and Investment, Foreign Investment Agency

In November 2015, Juroku Bank concluded a business cooperation agreement with the Vietnamese Ministry of Planning and Investment, Foreign Investment Agency for the purpose of supporting customers' expansion into Vietnam and enhancing the support system for conducting business locally.

Vietnam is gaining attention as a promising candidate for China +1, and more customers are considering expansion there.

Through collaboration with the Agency, we will support expansion into Vietnam and local business development.

Signing ceremony

Holding of an Overseas Local Market Debriefing

In March 2015, Juroku Bank opened its first new overseas representative offices in roughly 20 years in Singapore and Bangkok. Taking advantage of this overseas four-location system, together with our Hong Kong and Shanghai representative offices, we held an overseas local market debriefing in October 2015. The debriefing was held by the heads of our overseas representative offices for the purpose of benefitting overseas business develop-

ment, and provided the latest hands-on information gained through contact with many local customers and related institutions.

Speech by the Head of our Singapore Office

Holding of Business Conferences in Bangkok, Thailand and Shanghai, China

Juroku Bank, in association with regional banks and local governments, held "Mfair Bangkok 2015" in June 2015 and "FBC Shanghai 2015" in September 2015.

As customers' overseas business developments thrive, we have provided opportunities for effective business meetings for the local procurement of materials and parts, as well as the expansion of sales routes for proprietary products.

In addition, we have also held business conferences in Guangzhou and Dalian in China, and will actively provide

venues to discover business opportunities and support the overseas business activities of our customers.

CSR Activities

▶ **Awarded “Bank of the Year” by Nihon M&A Center Inc.**
 In June 2015, at the third Bank of the Year Awards Ceremony held by Nihon M&A Center Inc., Juroku Bank was awarded “Bank of the Year,” their highest award, becoming the first regional bank from the Tokai area to receive the award. We were praised for our excellent performance in our cooperation with Nihon M&A Center Inc. in the previous fiscal year, and obtained the highest rank in both conclusion of contracts and consignment of trusts.

▶ **Contributions to the Community by the JUROKU FOUNDATION FOR REGIONAL PROMOTION**

JUROKU FOUNDATION FOR REGIONAL PROMOTION was founded with the goal of contributing to local communities. It supports such activities as promotion of local industry, improvement of social and life environment, and promotion of culture, sports, international exchange and other activities. In FY2015, it provided ¥6,680,000 in grants to 30 projects. The foundation also has a scholarship grant program, and in FY2015, it provided ¥25,000,000 in annual scholarships to 62 students.

Organization Chart

The Juroku Bank, Ltd. (as of June 30, 2016)

(as of March 31, 2016)

Business Environment

During the fiscal year under review, the Japanese economy remained generally flat, as a result of factors such as corporate earnings being underpinned by monetary easing measures, despite of uncertainty arising with the slump in global economy, including the slowdown in China's growth rate and the delay in economic recovery in the U.S. Moreover, a gradual rise in wages continued from the previous fiscal year, and low crude oil prices also had a positive effect on consumption.

In the region of the Bank's core business, Gifu and Aichi prefectures, economic recovery continued overall, as automobile production remained at a high level due to continued depreciation of the yen which lasted until the end of 2015, while the employment situation also remained favorable and personal consumption improved gradually as well.

Performance

Ordinary income from banking operations decreased by ¥13,821 million to ¥88,942 million, mainly due to a decrease in gain on sales of stock and other securities. Ordinary expenses increased by ¥2,027 million to ¥69,873 million, due primarily to an increase in loss on sales of stocks and other securities, despite a decrease in operating expenses. As a result, ordinary profit decreased by ¥15,848 million to ¥19,068 million.

In the leasing business, ordinary income increased by ¥645 million to ¥21,144 million, while ordinary expenses increased by ¥525 million to ¥19,699 million and ordinary profit increased by ¥120 million to ¥1,445 million.

In other businesses, including the credit card business and credit guarantee business, ordinary income increased by ¥286 million to ¥6,137 million, ordinary expenses increased by ¥241 million to ¥4,261 million, while ordinary profit increased by ¥44 million to ¥1,875 million.

As a result, ordinary income on a consolidated basis decreased by ¥12,991 million to ¥114,544 million and ordinary expenses increased by ¥2,726 million to ¥92,198 million, while ordinary profit decreased by ¥15,717 million to ¥22,346 million and net income attributable to owners of the parent decreased by ¥9,428 million to ¥13,371 million.

Financial Position

In relation to balance of deposits, while striving to procure low cost stable, long-term funds, the Bank also worked to strengthen its lineup of investment products amidst the sharp drop in market interest rates due to the introduction of the negative interest rate policy. These included investment trusts, public bonds, pension insurance, and whole life insurance as a positive response to growing and diversifying asset management needs, particularly among individuals. As a result, our balance of deposits as of March 31, 2016 decreased by ¥37.2 billion to ¥5,350.2 billion, mainly due a decrease in negotiable certificates of deposit for corporations. Meanwhile, the balance of individual customer assets increased by ¥41.6 billion to ¥4,277.3 billion.

In lending activities, the Bank responded actively to demands for funds from local enterprises, particularly small to medium enterprises. In addition, we worked actively to provide mortgage loans and other financing to individuals. Consequently, our balance of loans as of March 31, 2016 increased by ¥77.9 billion to ¥3,943.5 billion.

With regard to securities, in addition to underwriting and purchasing central and local government bonds, while closely watching market conditions, the Bank engaged in bond and other securities transactions in order to efficiently manage funds. As a result, our balance of securities as of March 31, 2016 increased by ¥133.2 billion to ¥1,795.8 billion.

Net cash provided by operating activities amounted to ¥92,207 million (¥171,710 million was provided in the previous term), mainly as a result of an increase in payables under repurchase agreements. Net cash used in investing activities amounted to ¥157,873 million (¥168,540 million was provided in the previous term), mainly as a result of the purchases of securities. Net cash used in financing activities amounted to ¥6,017 million (¥32,947 million was used in the previous term), mainly as a result of repayment of subordinated loans. As a result, the closing balance of cash and cash equivalents decreased by ¥71,698 million during the term under review, to ¥327,296 million.

Notes to Consolidated Financial Statements

The Juroku Bank, Ltd. and Consolidated Subsidiaries Year Ended March 31, 2016

1. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations and the Enforcement Regulation for the Banking Law, and in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2015 consolidated financial statements to conform to the classifications used in 2016.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which The Juroku Bank, Ltd. (the "Bank") is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥112.68 to \$1, the approximate rate of exchange at March 31, 2016. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Consolidation

The consolidated financial statements as of March 31, 2016, include the accounts of the Bank and its six (seven in 2015) significant subsidiaries, including Juroku Business Service Co., Ltd., Juroku Research Institute Co., Ltd., Juroku Card Co., Ltd., Juroku Lease Co., Ltd., Juroku Computer Service Co., Ltd., and Juroku Credit Guarantee Co., Ltd. (together, the "Group").

One consolidated subsidiary is excluded from consolidation as of March 31, 2016, because it has merged with Juroku Credit Guarantee Co., Ltd., another consolidated subsidiary.

Under the control concept, those companies in which the Bank, directly or indirectly, is able to exercise control over operations are fully consolidated.

Investments in six (six in 2015) unconsolidated subsidiaries are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

The excess of the cost of acquisition over the fair value of the net assets of an acquired subsidiary at the date of acquisition is being amortized over a period of 20 years.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profits included in assets resulting from transactions within the Group have been eliminated in consolidation.

The balance sheet date for all consolidated subsidiaries is the end of March for each year, which is consistent with the balance sheet date of the Group.

b. Business Combination

In October 2003, the Business Accounting Council issued a Statement of Opinion, "Accounting for Business Combinations," and in December 2005, the Accounting Standards Board of Japan (the "ASBJ") issued ASBJ Statement No. 7, "Accounting Standard for Business Divestitures" and ASBJ Guidance No. 10, "Guidance for Accounting Standard for Business Combinations and Business Divestitures."

In December 2008, the ASBJ issued a revised accounting standard for business combinations, ASBJ Statement No. 21, "Accounting Standard for Business Combinations." Major accounting changes under the revised accounting standard are as follows: (1) The revised standard requires accounting for business combinations only by the purchase method. As a result, the pooling-of-interests method of accounting is no longer allowed. (2) The previous accounting standard required research and development costs to be charged to income as incurred. Under the revised standard, in-process research and development costs (IPR&D) acquired in the business combination are capitalized as an intangible asset. (3) The previous accounting standard provided for a bargain purchase gain (negative goodwill) to be systematically amortized over a

period not exceeding 20 years. Under the revised standard, the acquirer recognizes the bargain purchase gain in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation. The revised standard was applicable to business combinations undertaken on or after April 1, 2010.

In September, 2013, the ASBJ issued revised ASBJ Statement No. 21, "Accounting Standard for Business Combinations," revised ASBJ Guidance No. 10, "Guidance on Accounting Standards for Business Combinations and Business Divestitures," and revised ASBJ Statement No. 22, "Accounting Standard for Consolidated Financial Statements." Major accounting changes are as follows:

(a) *Transactions with noncontrolling interest* - A parent's ownership interest in a subsidiary might change if the parent purchases or sells ownership interests in its subsidiary. The carrying amount of noncontrolling interest is adjusted to reflect the change in the parent's ownership interest in its subsidiary while the parent retains its controlling interest in its subsidiary. Under the previous accounting standard, any difference between the fair value of the consideration received or paid and the amount by which the noncontrolling interest is adjusted is accounted for as an adjustment of goodwill or as profit or loss in the consolidated statement of income. Under the revised accounting standard, such difference is accounted for as capital surplus as long as the parent retains control over its subsidiary.

(b) *Presentation of the consolidated balance sheet* - In the consolidated balance sheet, "minority interest" under the previous accounting standard is changed to "noncontrolling interest" under the revised accounting standard.

(c) *Presentation of the consolidated statement of income* - In the consolidated statement of income, "income before minority interest" under the previous accounting standard is changed to "net income" under the revised accounting standard, and "net income" under the previous accounting standard is changed to "net income attributable to owners of the parent" under the revised accounting standard.

(d) *Provisional accounting treatments for a business combination* - If the initial accounting for a business combination is incomplete by the end of the reporting period in which the business combination occurs, an acquirer shall report in its financial statements provisional amounts for the items for which the accounting is incomplete. Under the previous accounting standard guidance, the impact of adjustments to provisional amounts recorded in a business combination on profit or loss is recognized as profit or loss in the year in which the measurement is completed.

Under the revised accounting standard guidance, during the measurement period, which shall not exceed one year from the acquisition, the acquirer shall retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date and that would have affected the measurement of the amounts recognized as of that date. Such adjustments shall be recognized as if the accounting for the business combination had been completed at the acquisition date.

(e) *Acquisition-related costs* - Acquisition-related costs are costs, such as advisory fees or professional fees, which an acquirer incurs to effect a business combination. Under the previous accounting standard, the acquirer accounts for acquisition-related costs by including them in the acquisition costs of the investment. Under the revised accounting standard, acquisition-related costs shall be accounted for as expenses in the periods in which the costs are incurred.

The above accounting standards and guidance for (a) transactions with noncontrolling interest, (b) presentation of the consolidated balance sheet, (c) presentation of the consolidated statement of income, and (e) acquisition-related costs are effective for the beginning of annual periods beginning on or after April 1, 2015. Earlier application is permitted from the beginning of annual periods beginning on or after April 1, 2014, except for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income. In case of earlier application, all accounting standards and guidance above, except for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income, should be applied simultaneously.

Either retrospective or prospective application of the revised accounting standards and guidance for (a) transactions with noncontrolling interest and (e) acquisition-related costs is permitted. In retrospective application of the revised standards and guidance, the accumulated effects of retrospective adjustments for all (a) transactions with noncontrolling interest and (e) acquisition-related costs which occurred in the past shall be reflected as adjustments to the beginning balance of capital surplus and retained earnings for the year of the first-time application. In prospective application, the new standards and guidance shall be applied prospectively from the beginning of the year of the first-time application.

The revised accounting standards and guidance for (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income shall be applied to all periods presented in financial statements containing the first-time application of the revised standards and guidance.

The revised standards and guidance for (d) provisional accounting treatments for a business combination are effective for a business combination which occurs on or after the beginning of annual periods beginning on or after April 1, 2015. Earlier application is permitted for a business combination which occurs on or after the beginning of annual periods beginning on or after April 1, 2014.

The Group applied the revised accounting standards and guidance for (a) transactions with noncontrolling interest, (b) presentation of the consolidated balance sheet, (c) presentation of the consolidated statement of income, and (e) acquisition-related costs above, effective April 1, 2015, and (d) provisional accounting treatments for a business combination above for a business combination which occurred on or after April 1, 2015. The revised accounting standards and guidance for (a) transactions with noncontrolling interest and (e) acquisition-related costs were applied prospectively.

With respect to (b) presentation of the consolidated balance sheet and (c) presentation of the consolidated statement of income, the applicable line items in the 2015 consolidated financial statements have been accordingly reclassified and presented in line with those in 2016.

In the consolidated statement of cash flows for the year ended March 31, 2016, cash flows for purchases or sales of ownership interests in a subsidiary without a change in consolidation scope are presented under financing activities, and cash flows for acquisition-related costs are presented under operating activities.

As a result, income before income taxes for the year ended March 31, 2016, decreased by ¥353 million (\$3,135 thousand) and capital surplus at March 31, 2016, increased by ¥353 million (\$3,135 thousand).

c. Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents represent cash and amounts due from the Bank of Japan.

d. Trading securities

Trading securities are stated at fair value and the related unrealized gains and losses are included in earnings. The cost of trading securities sold is determined based on the moving-average method.

e. Securities

Securities other than trading securities are classified and accounted for, depending on management's intent, as follows: 1) held-to-maturity debt securities, which are expected to be held to maturity with the positive intent and ability to hold to maturity, are reported at amortized cost and 2) available-for-sale securities, which are not classified as held-to-maturity, are reported at fair value with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity. Non-marketable available-for-sale securities are stated at cost determined by the moving-average method.

For other-than-temporary declines in fair value, securities are reduced to net realizable value by a charge to income.

Securities included in money held in trust for trading purposes are stated at fair value, and the related unrealized gains and losses are included in earnings. Securities included in money held in trust for other purpose are accounted for by the same method as the above 2) available-for-sale securities.

f. Premises and equipment

Premises and equipment are stated at cost less accumulated depreciation. Depreciation of premises and equipment of the Bank, except for leased assets, is computed by the declining-balance method over the estimated useful lives of the assets.

The range of useful lives is principally from 15 to 50 years for buildings and from four to 20 years for other premises and equipment.

Depreciation of lease assets from finance lease transactions that do not deem to transfer ownership of the leased property to the lessee is computed using the straight-line method over the leasing period. Residual values of lease assets are the guaranteed values determined in the lease contracts or zero for assets without such guaranteed value.

Under certain conditions, such as exchanges of premises and equipment for similar kinds and sales and purchases resulting from expropriation, Japanese tax laws permit companies to defer the profit arising from such transactions by reducing the cost of the assets acquired or by providing a special reserve in the equity section. The deferred gain on premises and equipment resulting from the reduction of the cost of the assets acquired, which is taxable for tax purposes in the future, was ¥999 million (\$8,866 thousand) and ¥1,048 million as of March 31, 2016 and 2015, respectively.

g. Long-lived assets

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or the net selling price at disposition.

b. Land revaluation

Under the "Law of Land Revaluation," the Bank elected a one-time revaluation of its own-use land to a value based on real estate appraisal information as of March 31, 1998.

The resulting land revaluation surplus represents unrealized appreciation of land and is stated, net of income taxes, as a component of equity. There was no effect on the consolidated statement of income. Continuous readjustment is not permitted unless the land value subsequently declines significantly such that the amount of the decline in value should be removed from the land revaluation surplus account and related deferred tax liabilities.

The carrying amount of the land after the above one-time revaluation exceeded the market value by ¥19,645 million (\$174,343 thousand) and ¥20,275 million as of March 31, 2016 and 2015, respectively.

i. Intangible assets

Amortization of intangible assets is calculated by the straight-line method.

Amortization cost for software for internal use is calculated by the straight-line method over the estimated useful life, principally, five years.

j. Reserve for possible loan losses

The Bank implemented a self-assessment system for its asset quality. The quality of all loans is assessed by the related lending division with a subsequent audit by the asset audit division in accordance with the Bank's policies and rules for self-assessment of asset quality.

The Bank has established a credit rating system under which the customers are classified into five categories such as "normal," "caution," "possible bankruptcy," "virtual bankruptcy" and "legal bankruptcy." The credit rating system is used for the self-assessment of asset quality.

For normal and caution loans, the reserve for possible loan losses is calculated based on actual past loss ratios. For loans such as possible bankruptcy, the reserve for possible loan losses is calculated based on an amount deemed necessary to cover possible losses on loans considering the customer's solvency and other factors, after the estimated fair value of the collateral real estate or guaranteed amount has been deducted. For loans such as virtual bankruptcy or legal bankruptcy, the reserve for possible loan losses is calculated based upon the loan amount after the estimated fair value of the collateral real estate or guaranteed amount has been deducted.

For loans to possible bankruptcy customers and a rescheduled loan, if the exposure to a customer after deducting the estimated value of the collateral or guaranteed amount exceeds a certain amount, the discounted cash flow method is applied for reserve provision, under which the reserve is determined as the difference between the book value of the loan and its present value of future cash flows discounted using the

contractual interest rate in the case that future cash flows of the principal and interest can be reasonably estimated.

Reserve for possible loan losses of consolidated subsidiaries is provided based on historical loan loss experience and estimated collectability of specific claims.

k. Liability for retirement benefits

The Bank has a contributory funded defined benefit pension plan and lump-sum payment severance plan for employees, and certain subsidiaries have lump-sum payment severance plans for employees and apply the simplified method to state the liability based on the amount that should be paid if employees retired at the consolidated balance sheet date.

The liability for retirement benefits is provided based on projected benefit obligations and plan assets at the end of the fiscal year. The projected benefit obligations are attributed to periods on a benefit formula basis. Any actuarial differences are amortized by the straight-line method mainly over 10 years within the average of employees' remaining service period, starting in the fiscal year following the occurrence of such differences.

(Additional information)

The Bank has transferred a portion of its defined benefit corporate pension plan to a defined contribution pension plan, effective from April 1, 2016.

The Bank recognized a loss on revision of retirement benefit plan arising from the transfer to a defined contribution pension plan, amounting to ¥244 million (\$2,165 thousand), in accordance with ASBJ Guidance No. 1, "Accounting for Transfer Between Retirement Benefit Plans" and ASBJ Practical Issues Task Force ("PITF") No. 2, Practical Solution on Accounting for Transfer Between Retirement Benefit Plans".

In May 2012, the ASBJ issued ASBJ Statement No. 26, "Accounting Standard for Retirement Benefits" and ASBJ Guidance No. 25, "Guidance on Accounting Standard for Retirement Benefits," which replaced the accounting standard for retirement benefits that had been issued by the Business Accounting Council in 1998 with an effective date of April 1, 2000, and the other related practical guidance, and were followed by partial amendments from time to time through 2009.

(a) Under the revised accounting standard, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and any resulting deficit or surplus is recognized as a liability (liability for retirement benefits for employees) or asset (asset for retirement benefits for employees).

(b) The revised accounting standard does not change how to recognize actuarial gains and losses and past service costs in profit or loss. Those amounts are recognized in profit or loss over a certain period no longer than the expected average remaining service period of the employees. However, actuarial gains and losses and past service costs that arose in the current period and have not yet been recognized in profit or loss are included in other comprehensive income and actuarial gains and losses and past service costs that were recognized in other comprehensive income in prior periods and then recognized in profit or loss in the current period are treated as reclassification adjustments (see Note 30).

(c) The revised accounting standard also made certain amendments relating to the method of attributing expected benefit to periods, the discount rate, and expected future salary increases.

This accounting standard and the guidance for (a) and (b) above are effective for the end of annual periods beginning on or after April 1, 2013, and for (c) above are effective for the beginning of annual periods beginning on or after April 1, 2014, or for the beginning of annual periods beginning on or after April 1, 2015, subject to certain disclosure in March 2015, both with earlier application being permitted from the beginning of annual periods beginning on or after April 1, 2013. However, no retrospective application of this accounting standard to consolidated financial statements in prior periods is required.

The Bank applied the revised accounting standard and guidance for retirement benefits for (a) and (b) above, effective March 31, 2014, and for (c) above, effective April 1, 2014.

With respect to (c) above, the Bank changed the method of attributing the expected benefit to periods from a straight-line basis to a benefit formula basis and the method of determining the discount rate from using the period which approximates the expected average remaining service period to using a single weighted average discount rate reflecting the estimated timing and amount of benefit payment, and recorded the effect of (c) above as of April 1, 2014, in retained earnings. As a result,

retained earnings as of April 1, 2014, increased by ¥4,998 million.

Liability for retirement benefits for directors and Audit & Supervisory Board members of consolidated subsidiaries are provided at the amount that would be required if all directors and Audit & Supervisory Board members retired at the balance sheet date.

l. Stock option

ASBJ Statement No. 8, "Accounting Standard for Stock Options" and related guidance are applicable to stock options newly granted on and after May 1, 2006. This standard requires companies to recognize compensation expense for employee stock options based on the fair value at the date of grant and over the vesting period as consideration for receiving goods or services. The standard also requires companies to account for stock options granted to non employees based on the fair value of either the stock options or the goods or services received. In the consolidated balance sheet, the stock options are presented as a stock acquisition rights as a separate component of equity until exercised.

m. Leases

In March 2007, the ASBJ issued ASBJ Statement No. 13, "Accounting Standard for Lease Transactions," which revised the previous accounting standard for lease transactions.

(As lessor)

Under the previous accounting standard, finance leases that were deemed to transfer ownership of the leased property to the lessee were treated as sales. However, other finance leases were permitted to be accounted for as operating lease transactions if certain "as if sold" information was disclosed in the notes to the lessor's financial statements. The revised accounting standard requires that all finance leases that are deemed to transfer ownership of the leased property to the lessee be recognized as lease receivables and all finance leases that are not deemed to transfer ownership of the leased property to the lessee be recognized as investments in leases.

The Group applied the revised accounting standard effective April 1, 2008. For the finance lease contracts that existed on adoption and do not transfer ownership of the leased property to the lessee, the appropriate carrying amount of the leased assets (after deducting accumulated depreciation) at adoption is used as the beginning value of the investments in leases. Interest revenues of these finance lease contracts that existed at the adoption are calculated by the straight-line method over the remaining lease period as accepted by ASBJ Guidance No. 16, "Guidance on Accounting Standard for Lease Transaction." As a result of this treatment, income before income taxes is ¥30 million (\$266 thousand) and ¥85 million larger than the same calculated using the new standards for the contracts that existed at the adoption for the years ended March 31, 2016 and 2015, respectively.

In regard to finance lease, sales and cost of sales are accounted when lease payments are paid.

All other leases are accounted for as operating leases.

n. Bonuses to directors and Audit & Supervisory Board members

Bonuses to directors and Audit & Supervisory Board members of consolidated subsidiaries are accrued at the end of the year to which such bonuses are attributable.

o. Provision for losses from reimbursement of inactive accounts

The provision for losses from reimbursement of inactive accounts, which are derecognized as liabilities under certain conditions, is provided for possible losses on future claims of withdrawal based on historical reimbursement experience.

p. Provision for contingent losses

The Bank provides a provision for contingent losses not covered by other provisions in an amount deemed necessary based on estimated losses in the future.

q. Income taxes

The provision for current income taxes is computed based on the pretax income included in the consolidated statement of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.

r. Foreign currency transactions

Foreign currency assets and liabilities of the Group are translated into yen equivalents at the exchange rates prevailing at the fiscal year end.

s. Derivatives and hedging activities

The Bank uses a variety of derivative financial instruments.

Derivative financial instruments and foreign currency transactions are classified and accounted for as follows: (1) all derivatives are recognized as either assets or liabilities and measured at fair value, and gains or losses on the derivative transactions are recognized in the consolidated statement of income and (2) for derivatives used for hedging purposes, if the derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on the derivatives are deferred until maturity of the hedged transactions.

The Bank applies the deferral method of hedge accounting to hedges of interest rate risk associated with financial assets and liabilities in accordance with Industry Audit Committee Report No. 24, "Accounting and Auditing Treatments on the Application of Accounting Standards for Financial Instruments in the Banking Industry," issued by the Japanese Institute of Certified Public Accountants (JICPA) (the JICPA Industry Audit Committee Report No. 24, February 13, 2002). Under JICPA Industry Audit Committee Report No. 24, hedges to offset changes in fair value of fixed rate instruments (such as securities) ("fair value hedges") are applied by grouping hedging instruments and hedged items by their maturities. The assessment of hedge effectiveness is generally based on the consideration of interest rate indices affecting the respective fair values of the group of hedging instruments and hedged items. All other derivatives are recognized as either assets or liabilities and measured at fair value and gains or losses on derivative transactions are recognized in the consolidated statement of income.

t. Consumption taxes

The Bank and its domestic consolidated subsidiaries account for consumption tax and local consumption tax by the tax-exclusion method.

u. Per share information

Basic net income per share is computed by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding for the period, retroactively adjusted for stock splits.

Diluted net income per share reflects the potential dilution that could occur if securities were exercised or converted into common stock. Diluted net income per share of common stock assumes full conversion of the outstanding convertible notes and bonds at the beginning of the year (or at the time of issuance) with an applicable adjustment for related interest expense, net of tax, and full exercise of outstanding warrants.

Cash dividends per share presented in the accompanying consolidated statement of income are dividends applicable to the respective years including dividends to be paid after the end of the year.

v. Accounting Changes and Error Corrections

In December 2009, the ASBJ issued ASBJ Statement No. 24, "Accounting Standard for Accounting Changes and Error Corrections," and ASBJ Guidance No. 24, "Guidance on Accounting Standard for Accounting Changes and Error Corrections." Accounting treatments under this standard and guidance are as follows: (1) Changes in Accounting Policies—When a new accounting policy is applied following a revision of an accounting standard, the new policy is applied retrospectively unless the revised accounting standard includes specific transitional provisions, in which case the entity shall comply with the specific transitional provisions. (2) Changes in Presentation—When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation. (3) Changes in Accounting Estimates—A change in an accounting estimate is accounted for in the period of the change if the change affects that period only, and is accounted for prospectively if the change affects both the period of the change and future periods. (4) Corrections of Prior-Period Errors—When an error in prior-period financial statements is discovered, those statements are restated.

w. New Accounting Pronouncements

Tax Effect Accounting—On March 28, 2016, the ASBJ issued ASBJ Guidance No. 26, "Guidance on Recoverability of Deferred Tax Assets," which included certain revisions of the previous accounting and auditing guidance issued by the JICPA. While the new guidance continues to follow the basic framework of the previous guidance, it provides new

guidance for the application of judgment in assessing the recoverability of deferred tax assets.

The previous guidance provided a basic framework which included certain specific restrictions on recognizing deferred tax assets depending on the company's classification in respect of its profitability, taxable profit and temporary differences, etc.

The new guidance does not change such basic framework but, in limited cases, allows companies to recognize deferred tax assets even for a deductible temporary difference for which it was specifically prohibited to recognize a deferred tax asset under the previous guidance, if the company can justify, with reasonable grounds, that it is probable that the deductible temporary difference will be utilized against future taxable profit in some future period.

The new guidance is effective for the beginning of annual periods beginning on or after April 1, 2016. Earlier application is permitted for annual periods ending on or after March 31, 2016. The new guidance shall not be applied retrospectively and any adjustments from the application of the new guidance at the beginning of the reporting period shall be reflected within retained earnings or accumulated other comprehensive income at the beginning of the reporting period.

The Bank expects to apply the new guidance on recoverability of deferred tax assets effective April 1, 2016, and is in the process of measuring the effects of applying the new guidance in future applicable periods.

3. BUSINESS COMBINATION

For the year ended March 31, 2015

On April 1, 2014, a consolidated subsidiary, Juroku JCB Co., Ltd. was merged into Juroku DC Card Co., Ltd., another consolidated subsidiary. This transaction was made to advance the credit card business and the effectiveness of Group management. The transaction was accounted for as a business combination under common control in accordance with ASBJ Statement No. 21, "Accounting Standard for Business Combinations" and ASBJ Guidance No. 10, "Guidance for Accounting Standard for Business Combinations and Business Divestitures." As a result, the Bank recognized gain on change in equity included in other income in the amount of ¥284 million for the year ended March 31, 2015.

4. CASH AND DUE FROM BANKS

Cash and due from banks as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Cash	¥ 71,861	¥ 76,450	\$ 637,744
Due from banks	255,609	322,691	2,268,450
Total	¥327,470	¥399,141	\$2,906,194

A reconciliation between the cash and due from banks in the consolidated balance sheet and the cash and cash equivalents in the consolidated statement of cash flows for the years ended March 31, 2016 and 2015, was as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Cash and due from banks	¥327,470	¥399,141	\$2,906,194
Due from banks other than the Bank of Japan	(173)	(146)	(1,535)
Cash and cash equivalents	¥327,297	¥398,995	\$2,904,659

5. TRADING SECURITIES AND SECURITIES

Trading securities as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
National government bonds	¥1,061	¥1,419	\$9,416

Total	\$4,172,710	\$82,712	\$28,062

In addition, held-to-maturity securities amounting to ¥385 million (\$3,417 thousand) and ¥399 million were reclassified as available-for-sale securities due to a decline in the issuer's credit worthiness as of March 31, 2016 and 2015. The effect of these reclassifications on the accompanying consolidated financial statements was immaterial.

The impairment loss on available-for-sale equity securities for the year ended March 31, 2016, was ¥125 million (\$1,109 thousand), which consisted of ¥16 million (\$142 thousand) of equity securities and ¥109 million (\$967 thousand) of debt securities. There was no impairment loss on available-for-sale equity securities for the year ended March 31, 2015.

Unrealized gain on available-for-sale securities as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Unrealized gain before deferred tax on:			
Available-for-sale securities	¥92,839	¥111,010	\$823,917
Money held in trust-other	12	—	107
Deferred tax liabilities	(27,229)	(34,360)	(241,649)
Unrealized gain on available-for-sale securities before interest adjustments	65,622	76,650	582,375
Noncontrolling interests	(309)	(361)	(2,742)
Unrealized gain on available-for-sale securities	¥65,313	¥ 76,289	\$579,633

Unrealized gain before deferred tax on available-for-sale securities includes ¥72 million (\$639 thousand) and ¥214 million of revaluation gain on available-for-sale securities as of March 31, 2016 and 2015, respectively, which are held by an investment limited partnership and similar groups.

Investments in and advances to subsidiaries and associated companies as of March 31, 2016 and 2015, were ¥241 million (\$2,139 thousand) and ¥285 million, respectively.

6. MONEY HELD IN TRUST

Information regarding money held in trust for trading purposes as of March 31, 2016 and 2015, was as follows:

	Carrying Amount		
	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Money held in trust classified as trading purpose	¥6,001	¥ 6,029	\$53,257
Money held in trust-other	1,011	5,620	8,972
Total	¥7,012	¥11,649	\$62,229

7. LOANS AND BILLS DISCOUNTED

Loans and bills discounted as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Bills discounted	¥ 25,731	¥ 27,325	\$ 228,355
Loans on bills	140,181	156,728	1,244,063
Loans on deeds	3,353,134	3,253,719	29,758,023
Overdrafts	408,057	414,175	3,621,379
Others	2,463	2,648	21,858
Total	¥3,929,566	¥3,854,595	\$34,873,678

“Nonaccrual loans,” which include loans to borrowers in bankruptcy and past due loans, are defined as loans upon which the Bank has discontinued the accrual of interest income. Borrowers are generally placed on nonaccrual status when substantial doubt is deemed to exist as to the ultimate collectability of either the principal or interest and if the loans are past due for a certain period of time or for other reasons.

“Loans to borrowers in bankruptcy” represent nonaccrual loans to debtors who are legally bankrupt, which is defined in Article 96, Paragraph 1, Subparagraphs 3 and 4 of Enforcement Ordinance for the Corporate Tax Law. Loans to borrowers in legal bankruptcy as of March 31, 2016 and 2015, were ¥3,900 million (\$34,611 thousand) and ¥4,774 million, respectively.

“Past due loans” are nonaccrual loans other than loans to borrowers in bankruptcy and loans of which interest payments are deferred in order to assist the financial recovery of a debtor in financial difficulty. Past due loans as of March 31, 2016 and 2015, were ¥96,146 million (\$853,266 thousand) and ¥99,242 million, respectively.

“Accruing loans past due three months or more” are defined as loans on which principal or interest is past due more than three months. Loans classified as loans to borrowers in bankruptcy and past due loans are excluded from accruing loans past due three months or more. Accruing loans past due three months or more as of March 31, 2016 and 2015, were ¥26 million (\$231 thousand) and ¥175 million, respectively.

“Restructured loans” are defined as loans in which the Group is providing financial support to a borrower by a reduction of interest rates, deferral of interest payments, extension of maturity dates, or reduction of the face or maturity amount of the debt or accrued interest. Loans classified as loans to borrowers in bankruptcy, past due loans and accruing loans past due three months or more are excluded from restructured loans. Restructured loans as of March 31, 2016 and 2015, were ¥5,431 million (\$48,198 thousand) and ¥9,920 million, respectively.

The total amount of loans to borrowers in bankruptcy, past due loans, accruing loans past due three months or more and restructured loans as of March 31, 2016 and 2015, were ¥105,503 million (\$936,306 thousand) and ¥114,111 million, respectively.

Bills discounted are accounted for as financing transactions in accordance with “Treatment of Accounting and Auditing in Applying Accounting Standard for Financial Instruments in the Banking Industry” issued by the Japanese Institute of Certified Public Accountants. The Bank has rights to sell or pledge accepted commercial bills discounted and foreign bills of exchange bought without restrictions. The total fair value of commercial bills discounted and foreign bills of exchange bought included in foreign exchanges as of March 31, 2016 and 2015, were ¥26,712 million (\$237,061 thousand) and ¥28,836 million, respectively.

8. FOREIGN EXCHANGES

Foreign exchanges as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Assets:			
Due from foreign correspondent account	¥3,792	¥10,262	\$33,653
Foreign bills of exchange bought	981	1,512	8,706
Foreign bills of exchange receivable	1,316	1,631	11,679
Total	¥6,089	¥13,405	\$54,038
Liabilities:			
Due to foreign correspondent account	¥ 700	¥ 838	\$ 6,212
Foreign bills of exchange payable	887	236	7,872
Total	¥1,587	¥ 1,074	\$14,084

9. OTHER ASSETS

Other assets as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Accrued income	¥ 6,296	¥ 6,769	\$ 55,875
Accounts receivable	9,386	10,004	83,298
Installment receivables	10,348	9,395	91,835
Derivative assets	5,540	3,650	49,166
Other	9,890	9,907	87,770
Total	¥41,460	¥39,725	\$367,944

10. PREMISES AND EQUIPMENT

Premises and equipment as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Land	¥46,624	¥46,661	\$413,773
Building	13,452	13,548	119,382
Construction in progress	495	1	4,393
Other	5,900	5,397	52,361
Total	¥66,471	¥65,607	\$589,909

The accumulated depreciation of premises and equipment as of March 31, 2016 and 2015, amounted to ¥59,230 million (\$525,648 thousand) and ¥60,984 million, respectively.

11. CUSTOMERS' LIABILITIES FOR ACCEPTANCES AND GUARANTEES

All contingent liabilities arising from acceptances and guarantees are reflected in acceptances and guarantees. As a contra account, the customers' liabilities for acceptances and guarantees are presented as assets, representing the Bank's right of indemnity from applicants.

The Enforcement Ordinance of the Banking Law was revised on April 17, 2007, and effective from the fiscal years beginning on and after April 1, 2006. The Bank offsets customer's liabilities for acceptance and guarantees with acceptance and guarantees of ¥20,666 million (\$183,404 thousand) and ¥27,640 million arising from guarantees of private placement securities as of March 31, 2016 and 2015, respectively.

12. ASSETS PLEDGED

Assets pledged as collateral and their relevant liabilities as of March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Assets pledged as collateral:			
Securities	¥490,601	¥309,295	\$4,353,932
Lease receivables and investments in leases	126	459	1,118
Other assets	93	46	825
Total	¥490,820	¥309,800	\$4,355,875
Relevant liabilities to above assets:			
Deposits	¥ 98,364	¥ 95,208	\$ 872,950
Payables under repurchase agreements	108,475	—	962,682
Payables under securities lending transactions	267,253	192,513	2,371,787
Borrowed money	13,584	16,825	120,554
Total	¥487,676	¥304,546	\$4,327,973

In addition, the following assets were pledged or deposited with respect to foreign exchange settlements and derivatives as of March 31, 2016 and 2015:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Securities	¥64,281	¥64,222	\$570,474
Other assets	8	8	71
Total	¥64,289	¥64,230	\$570,545

Additionally, initial margins of futures markets, cash collateral received for financial instruments liabilities, and guarantee deposits included in other assets were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Initial margins of future markets	¥1,032	¥ 76	\$ 9,158
Cash collateral received for financial instruments liabilities	97	—	861
Guarantee deposits	2,147	2,160	19,054
Total	¥3,276	¥2,236	\$29,073

13. DEPOSITS

Deposits as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Current deposits	¥ 294,305	¥ 298,698	\$ 2,611,866
Ordinary deposits	2,228,684	2,096,768	19,778,878
Deposits at notice	32,782	36,488	290,930
Savings deposits	90,549	92,281	803,594
Time deposits	2,506,855	2,606,608	22,247,560
Other deposits	96,967	96,526	860,552
Total	¥5,250,142	¥5,227,369	\$46,593,380

14. BORROWED MONEY AND LEASE OBLIGATION

Borrowed money and lease obligation as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Borrowings due serially to September 2022 with weighted average interest rates of 0.57% in 2016 and 0.66% in 2015	¥45,848	¥54,997	\$406,887
Lease obligation	125	171	1,109

Weighted average interest rates of lease obligation are not represented because lease obligation is disclosed on the balance sheet without deducting the interest portion which is included in the amount of lease obligation.

Annual maturities of borrowings as of March 31, 2016 and 2015, were as follows:

Year Ending March 31, 2016	Millions of Yen	Thousands of U.S. Dollars
2017	¥24,045	\$213,392
2018	6,179	54,837
2019	4,017	35,650
2020	2,223	19,728
2021	1,048	9,301
2022 and thereafter	8,336	73,979
Total	¥45,848	\$406,887

Year Ending March 31, 2015	Millions of Yen
2016	¥27,002
2017	7,360
2018	5,075
2019	2,913
2020	1,119
2021 and thereafter	11,528
Total	¥54,997

Borrowings include subordinated borrowings of the Bank, which amounted to ¥8,000 million (\$70,998 thousand) and ¥11,000 million as of March 31, 2016 and 2015, respectively.

Annual maturities of lease obligation as of March 31, 2016 and 2015, were as follows:

Year Ending March 31, 2016	Millions of Yen	Thousands of U.S. Dollars
2017	¥ 46	\$ 408
2018	46	408
2019	33	293
2020	—	—
2021	—	—
Total	¥125	\$1,109

Year Ending March 31, 2015	Millions of Yen
2016	¥ 46
2017	46
2018	46
2019	33
2020	—
Total	¥171

15. BONDS

Bonds as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Unsecured Yen subordinated bonds due December 2022 (*)	¥10,000	¥10,000	\$88,747
Total	¥10,000	¥10,000	\$88,747

(*) The interest rates of the bonds are 1.01% for the period from December 22, 2012 to December 21, 2017 and the six-month Euroyen London InterBank Offered Rate plus 2.20% for the period from December 22, 2017 to December 21, 2022.

16. OTHER LIABILITIES

Other liabilities as of March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Domestic exchange settlement account, credit (*)	¥ 75	¥ 54	\$ 666
Income taxes payable	3,235	5,273	28,710
Accrued expenses	4,825	5,250	42,820
Deferred income	12,705	12,072	112,753
Employees' deposits	2,877	2,845	25,532
Derivative liabilities	5,360	6,152	47,568
Accounts payable	6,890	6,974	61,147
Other	15,007	11,169	133,182
Total	¥50,974	¥49,789	\$452,378

(*) The domestic exchange settlement account consisted of outstanding remittance bills from other banks and/or collection bills for which the Bank has received notices for payment from other banks which have not been settled.

17. RETIREMENT AND PENSION PLANS

The Bank has a contributory funded defined benefit pension plan and lump-sum payment severance plan for employees and certain subsidiaries have lump-sum payment severance plans for employees and apply the simplified method to state the liability based on the amount that would be paid if employees retired at the consolidated balance sheet date. The Bank contributed certain assets to the employee retirement benefit trust for the Bank's contributory funded defined benefit pension plan and the assets in this trust are qualified as plan assets.

(Additional information)

The Bank has transferred a portion of its defined benefit corporate pension plan to a defined contribution pension plan, effective from April 1, 2016.

The Bank recognized a loss on revision of retirement benefit plan arising from the transfer to a defined contribution pension plan, amounting to ¥244 million (\$2,165 thousand), in accordance with ASBJ Guidance No. 1, "Accounting for Transfer Between Retirement Benefit Plans" and ASBJ Practical Issues Task Force ("PITF") No. 2, "Practical Solution on Accounting for Transfer Between Retirement Benefit Plans".

(1) The changes in defined benefit obligation for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Balance at beginning of year (as previously reported)	¥43,999	¥50,925	\$390,477

Asset for retirement benefits for employees	—	(8,080)	—
Net liability (asset) arising from defined benefit obligation	¥7,110	¥(2,193)	\$63,099

(4) The components of net periodic benefit costs for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Service cost	¥2,022	¥2,009	\$17,945
Interest cost	543	535	4,819
Expected return on plan assets	(1,125)	(1,005)	(9,984)
Recognized actuarial (gains) losses	(234)	125	(2,077)
Net periodic benefit costs	¥1,206	¥1,664	\$10,703
Gain or loss on from the transfer to a defined contribution pension plan	¥ 244	¥ —	\$ 2,165

(*1) The loss is recognized as "Loss on revision of retirement benefit plan" in the consolidated statement of income for the year ended March 31, 2016.

(5) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Actuarial (gains) losses	¥(9,878)	¥4,944	\$(87,664)
Total	¥(9,878)	¥4,944	\$(87,664)

(6) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Unrecognized actuarial losses (gains)	¥6,270	¥(3,608)	\$55,644
Total	¥6,270	¥(3,608)	\$55,644

(7) Plan assets

(a) Components of plan assets

Plan assets consisted of the following:

	2016		2015	
	2016	2015	2016	2015
Debt investments	28%	31%		
Equity investments	38	47		
General account for life insurance	20	17		
Others	14	5		
Total	100%	100%		

(*1) The retirement benefit trust that contributed to the pension plan is included in the plan assets and constitutes 15% and 18% of the total plan assets as of March 31, 2016 and 2015, respectively.

(b) Method of determining the expected rate of return on plan assets
The expected rate of return on plan assets is determined considering the current and future asset portfolio and the long-term rates of return which are expected currently and in the future from the variety of plan assets in the asset portfolio.

(8) Assumptions used for the years ended March 31, 2016 and 2015, were set forth as follows:

	2016	2015
Discount rate:		
Lump-sum payment	0.084%	0.824%
Pension plan	0.382%	1.302%
Expected rate of return on plan assets	3.000%	3.000%

18. ASSET RETIREMENT OBLIGATIONS

Asset retirement obligations are recognized for obligations of restoring leased buildings, such as branch premises, to their original state, based on the real estate lease contracts and asbestos removal costs.

Asset retirement obligations are calculated based on the estimated available periods of 10 to 47 years depending on the expected useful lives of buildings using discount rates from 1.395% to 2.461%.

The changes in asset retirement obligations, which are included in other liabilities, for the years ended March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Balance at beginning of year	¥196	¥193	\$1,739
Reconciliation associated with passage of time	4	4	36
Decrease due to fulfillment of asset retirement obligations	(5)	(1)	(44)
Balance at end of year	¥195	¥196	\$1,731

19. EQUITY

Japanese banks are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

(a) Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. Additionally, for companies that meet certain criteria, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation. However, the Bank cannot do so because it does not meet the criteria. Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

(b) Treasury stock and treasury stock acquisition rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders which is determined by a specific formula. Under the Companies Act, stock acquisition rights are presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

Other than above, the Japanese Banking Law provides that an amount equal to at least 20% of the aggregate amount of cash dividends and certain other cash payments which are made as an appropriation of retained earnings applicable to each fiscal period shall be set aside as a legal reserve until the total additional paid-in capital and legal reserve equals 100% of stated capital. The amount of total additional paid-in capital and legal reserve which exceeds 100% of stated capital can be transferred to retained earnings by resolution of the shareholders, which may be available for dividends. The Bank's legal reserve amount, which is included in retained earnings, totals ¥20,155 million (\$178,869 thousand) and ¥20,155 million as of March 31, 2016 and 2015, respectively.

20. STOCK OPTIONS

The stock options outstanding as of March 31, 2016, are as follows:

Stock Option	Persons Granted	Number of Options Granted	Date of Grant	Exercise Price	Exercise Period
2013 Stock Option	11 directors	126,200 shares	2013.7.23	¥1 (\$0.01)	From July 24, 2013 to July 23, 2043
2014 Stock Option	11 directors	155,500 shares	2014.7.23	¥1 (\$0.01)	From July 24, 2014 to July 23, 2044
2015 Stock Option	10 directors	96,000 shares	2015.7.23	¥1 (\$0.01)	From July 24, 2015 to July 23, 2045

The stock option activity is as follows:

Year Ended March 31, 2016	2013 Stock Option	2014 Stock Option	2015 Stock Option
	Option	Option	Option
<u>Non-vested</u>			
March 31, 2015—Outstanding	—	38,875	—
Granted	—	—	96,000
Canceled	—	—	—
Vested	—	38,875	72,000
March 31, 2016—Outstanding	—	—	24,000
<u>Vested</u>			
March 31, 2015—Outstanding	77,100	116,625	—
Vested	—	38,875	72,000
Exercised	7,400	7,600	—
Canceled	—	—	—
March 31, 2016—Outstanding	69,700	147,900	72,000
Exercise price	¥ 1 (\$0.01)	¥ 1 (\$0.01)	¥1 (\$0.01)
Average stock price at exercise	¥493 (\$4.38)	¥493 (\$4.38)	—
Fair value price at grant date	¥365 (\$3.24)	¥320 (\$2.84)	¥464 (\$4.12)

The Assumptions Used to Measure the Fair Value of the 2015 Stock Option

Estimate method:	Black-Scholes option pricing model
Volatility of stock price:	30.851%
Estimated remaining outstanding period:	8.7 years
Estimated dividend:	¥7 per share
Risk free interest rate:	0.328%

21. OTHER OPERATING INCOME

Other operating income for the years ended March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Gains on sales of Japanese government bonds and other	¥ 7,643	¥11,073	\$ 67,829
Income on lease transaction and installment receivables	19,774	19,435	175,488
Other	2,198	1,907	19,507
Total	¥29,615	¥32,415	\$262,824

22. OTHER INCOME

Other income for the years ended March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Gain on sales of stock and other securities	¥1,684	¥ 7,864	\$14,945
Other	2,756	3,226	24,458
Total	¥4,440	¥11,090	\$39,403

23. GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses for the years ended March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Salaries and wages	¥23,064	¥22,970	\$204,686
Other	32,246	32,845	286,173
Total	¥55,310	¥55,815	\$490,859

24. OTHER EXPENSE

Other expense for the years ended March 31, 2016 and 2015, consisted of the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Loss on sales of stock and other securities	¥1,541	¥ 153	\$13,676
Other	1,639	1,377	14,546
Total	¥3,180	¥1,530	\$28,222

25. INCOME TAXES

The Bank and its subsidiaries are subject to Japanese national and local income taxes which, in the aggregate, resulted in a normal effective statutory tax rate of approximately 32.28% and 34.80% for the years ended March 31, 2016 and 2015, respectively.

The tax effects of significant temporary differences and tax loss carryforwards, which result in deferred tax assets and liabilities as of March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Deferred tax assets:			
Reserve for possible loan losses	¥ 9,017	¥ 10,010	\$ 80,023
Liability for retirement benefits for employees	4,101	1,858	36,395
Write-down of securities	2,336	2,505	20,731
Depreciation	1,319	1,451	11,706
Tax loss carryforwards	—	15	—
Other	2,250	2,383	19,968
Less: Valuation allowance	(5,481)	(6,063)	(48,642)
Total	13,542	12,159	120,181
Deferred tax liabilities:			
Unrealized gain on available-for-sale securities	(27,229)	(34,360)	(241,649)
Gain on contribution of available-for-sale securities to employees' retirement benefit trusts	(1,018)	(1,072)	(9,034)
Asset for retirement benefits for employees	—	(522)	—
Other	(481)	(544)	(4,269)
Total	(28,728)	(36,498)	(254,952)
Net deferred tax assets	¥(15,186)	¥(24,339)	\$(134,771)

A reconciliation between the normal effective statutory tax rate and the actual effective tax rate reflected in the accompanying consolidated statement of income for the years ended March 31, 2016 and 2015, was as follows:

	2016	2015
Normal effective statutory tax rate	32.28%	34.80%
Expenses not deductible for income tax purposes	0.51	0.37
Income not taxable for income tax purposes	(1.01)	(1.22)
Per capita tax	0.40	0.21
Net change in valuation allowance	(1.34)	0.74
Reduction in year-end deferred tax assets (liabilities) due to tax-rate change	2.16	2.69
Gain on negative goodwill	—	(0.01)
The effect of variance with the future effective statutory tax rate	0.33	—
Other – net	0.57	0.11
Actual effective tax rate	33.90%	37.69%

New tax reform laws enacted in 2016 in Japan changed the normal effective statutory tax rate for the fiscal year beginning on or after April 1, 2016, from 31.51% to approximately 30.14%, 30.15%, and 29.92% for the fiscal year beginning on or after April 1, 2016, 2017, and 2018, respectively. The effect of this change was to decrease deferred tax assets by ¥11 million (\$98 thousand), to decrease deferred tax liabilities by ¥882 million (\$7,828 thousand), to increase unrealized gain on available-for-sale securities by ¥1,445 million (\$12,824 thousand), and to decrease defined retirement benefit plan by ¥100 million (\$887 thousand) in the consolidated balance sheet as of March 31, 2016, and to increase income taxes—deferred in the consolidated statement of income for the year then ended by ¥474 million (\$4,207 thousand). Also, deferred tax liabilities for land revaluation surplus decreased by ¥395 million (\$3,506 thousand), and land revaluation surplus increased by the same amount in the consolidated balance sheet as of March 31, 2016.

26. LEASES

Finance leases

(Lessee)

A subsidiary leases certain premises.

There was no rental expense including lease payments under the finance leases for the year ended March 31, 2016.

Total rental expenses including lease payments under the finance leases for the years ended March 31, 2015, were ¥17 million.

(Lessor)

A subsidiary leases certain equipment and other assets.

The net investments in leases as of March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Gross lease receivables	¥46,625	¥44,726	\$413,782
Unguaranteed residual values	1,416	1,321	12,567
Deferred interest income	(4,401)	(4,335)	(39,058)
Total	¥43,640	¥41,712	\$387,291

Maturities of lease receivables for finance leases that were deemed to transfer ownership of the leased assets to the lessee are as follows:

Year Ending March 31, 2016	Millions of Yen	Thousands of U.S. Dollars
2017	¥ 968	\$ 8,591
2018	708	6,283
2019	540	4,792
2020	409	3,630
2021	434	3,852
2022 and thereafter	476	4,224
Total	¥3,535	\$31,372

Year Ending March 31, 2015	Millions of Yen
2016	¥ 839
2017	711
2018	475
2019	298
2020	204
2021 and thereafter	437
Total	¥2,964

Maturities of investment in leases for finance leases that were deemed not to transfer ownership of the leased assets to the lessee are as follows:

Year Ending March 31, 2016	Millions of Yen	Thousands of U.S. Dollars
2017	¥12,176	\$108,058
2018	10,316	91,551
2019	8,461	75,089
2020	6,210	55,112
2021	4,221	37,460
2022 and thereafter	5,241	46,512
Total	¥46,625	\$413,782

Year Ending March 31, 2015	Millions of Yen
2016	¥11,899
2017	9,894
2018	7,920
2019	6,059
2020	3,846
2021 and thereafter	5,108
Total	¥44,726

Operating leases

(Lessee)

The minimum rental commitments under noncancelable operating leases as of March 31, 2016 and 2015, were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Due within one year	¥ 307	¥ 231	\$ 2,725
Due after one year	3,422	2,802	30,369
Total	¥3,729	¥3,033	\$33,094

(Lessor)

Expected future rental revenues under operating leases as of March 31, 2016 and 2015 were as follows:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Due within one year	¥ 456	¥ 379	\$ 4,047
Due after one year	856	848	7,597
Total	¥1,312	¥1,227	\$11,644

27. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

(1) Group policy for financial instruments

The Group provides banking services and comprehensive financial services including leasing business. The Group meets the needs of local business through providing various products and services in the banking services, lending services, trading of securities, securities investments and other financial services such as derivatives business. The Group has aligned its operations with local personnel and businesses and raises funds from deposits from customers, which are low cost and stable. The Group also raises funds by borrowing.

As for loans and bills discounted in the money management system, the Group finances local companies based on their capital demands and individuals mainly for home mortgages. As its main resources are bank deposits from customers, the Group aims to ensure the soundness of the assets through appropriate credit decisions and credit rating by understanding the current credit status and managing the credit portfolio to prevent concentrations in specific customers or industries. In marketable securities, considering the nature that it is engaged in excess fund management relating to lending services and its responsibility as a bank to

provide settlement services, the Group focuses on running a fund based on public bonds, which is superior in security and liquidity. To build up a portfolio that is less subject to rising interest rates, the Group invests in risk assets such as securities whose values are expected to be less correlated with bonds.

The Group executes derivative transactions to fund and invest capital to meet the various needs of its customers as well as to meet its own needs. In trading transactions, the Group avoids excessive risk by restricting the type of transactions and limiting the volume of transactions. Also, the Group will not trade a particular investment if its fair value is volatile compared to that of the underlying assets (i.e. high leverage-effect transaction).

(2) Nature and extent of risks arising from financial instruments
The loans and bills discounted are to general business enterprises, individuals, and local public bodies, and there is a risk (credit risk) that the value of loaned money is reduced by financial deterioration of the borrower and a risk (interest risk) of losses due to changes in interest rates.

In securities, the Group holds domestic bonds which are comprised mainly of public bonds such as government bonds and local government bonds, foreign securities, which are comprised of mainly US Treasury, stocks, investment trusts, and investment partnerships and so forth for investment purposes. Also, the Group holds certain domestic bonds for held-to-maturity purposes. In trading securities, the Group holds domestic bonds for trading. These items have interest risk, risk of changes in price, credit risk, and market liquidity risk. Market liquidity risk represents the risk that market trades cannot be performed due to market turmoil and that the Group may suffer losses due to significantly unfavorable financing conditions.

Deposits and borrowed money hold interest risk and cash flow risk (liquidity risk). Cash flow risk refers to the risk that securing necessary financing becomes difficult or significant unfavorable financing conditions result in recording of loss due to a mismatch of periods between operations and financing and unexpected outflows of money. Derivative transactions related to interest are comprised of interest-rate swap agreements, cap agreements, floor agreements, and interest futures.

Derivative transactions related to currency are comprised of exchange contracts, non-deliverable forwards (NDF), currency swap agreements, and currency option contracts. Derivative transactions related to securities are comprised of bond futures, options on bond futures, OTC bond options, stock index futures, options on stock index futures, and individual security options.

The Group utilizes derivative transactions to meet customer needs and to control risk so that interest risk, risk of changes in prices, and foreign currency exchange risk are not excessive. In trading transactions, the Group utilizes derivative transactions to earn a profit and to accumulate the know-how related to the transactions and understand market trends.

The derivative transactions the Group utilizes are exposed to interest risk, currency exchange risk, the risk of change in prices, and credit risk. In utilizing derivative transactions, the Group performs effective covering of transactions to meet customers' needs, and in trading transactions, the Group preliminarily establishes a risk limit to avoid exposing the Group to an excessive degree of market risk. Transactions such as listed futures are exposed to limited credit risk and OTC transactions such as interest swaps are assumed to have low risk since the counterparties are comprised of highly credible financial institutions and companies.

Some of the derivatives utilized to control the risks from securities are recorded on the basis of hedge accounting in accordance with JICPA Accounting Practice Committee Report No. 14, "Practical Guideline for Accounting for Financial Instruments". Such derivatives are interest rate swaps that are utilized to control the risks from securities. The Bank reviews the effectiveness of hedging activities using the methods permitted under the accounting standards.

(3) Risk management for financial instruments

Integrated Risk

The Group defines integrated risk management policies and regulations, and strengthens integrated risk management to ensure the soundness of management.

The Group monitors various risks holistically including measurement by statistical methods and aims to control risks within the range of management vitality. Specifically, the Group allocates risk capital to credit risk, market risk, and operational risk based on Value at Risk ("VaR") calculations according to assumptions about the market fluctuation rate and its half year business plan. In each operation division, the

Group aims to control risk and obtain returns within the range of risk capital. Integrated risk is managed by the risk management department and is reported monthly to the ALM committee and quarterly to the Board of Directors meetings. Necessary actions such as risk control are taken promptly.

Credit Risk Management

The Group defines credit risk management policy and rules such as credit risk management regulation to understand, manage and take actions on credit risk appropriately.

In screening requests for loans, the Group clearly separates the credit department from the operating department and the Group performs strict examination by the type of business. Also, the Group analyzes if repayment resources are ensured and reasonably secured on individual loans based on the purpose of the loan, business plans and investment effects.

For portfolio management, the Group aims to improve its credit portfolio by preventing concentrations in particular customers or industries and by ensuring profits to meet credit costs.

In addition, in order to improve credit risk, the Group seeks to implement management and business restructuring for customers experiencing difficult business conditions.

Regarding credit risk management, the Group defines a credit rating system where the Group evaluates the degree of credit risk by an integrated scale objectively and makes arrangements to reevaluate credit ratings close to fiscal year end or when there are any changes in credit status.

As for the level of credit risk and degree of concentration of credit granting, the risk controlling department manages credit risk, reports monthly to the ALM committee and quarterly to management and discusses necessary actions.

Market risk management (foreign exchange risk and interest rate risk)

The Group considers interest risk, currency risk and the risk of change in prices as the main market risks and institutes a market risk management policy to manage the risks properly to avoid a reduction in the value of assets and losing credit. The Group also institutes market risk management regulations according to the market risk management policy to clarify the identification of market risk, the role of the department in charge, the method of evaluation and monitoring and the methods for controlling and reducing market risk.

Under integrated risk management, the Group allocates risk capital to each business (deposit, loan, investment securities and other securities) and establishes a cap on the investment amount and a maximum loss amount and matters to be discussed (level of loss to be re-examined). The Group handles market transactions within these risk limits expeditiously and effectively. With regard to these risks, the risk controlling department manages and reports monthly to the ALM committee and quarterly to the Board of Directors meetings and discusses necessary actions.

Regarding derivative transactions, the Group follows internal regulations and policies. The market-risk-management department (middle office) and office-work department (back office) manage and monitor the balance, fair value, profit and loss and measurement of risk of the transactions and report to top-management regularly to ensure mutual supervision of risks. Especially in trading transactions, the market-risk-management department (middle office) manages the positions, measurement of risk and application for loss cut rule closely.

The Group holds financial instruments which are exposed to market risks (e.g. interest-rate risk, price-volatility risk and exchange risk) such as loans and bills discounted, securities, deposits, negotiable deposits, borrowed money and corporate bonds. To manage these market risks, the Group calculates VaR, which is used for quantitative analysis.

The Group calculates VaR of private placement bonds, borrowed money and corporate bonds which are exposed to interest-rate risk by the variance-covariance method (six months holding period with confidence interval of 99%, observation period one year). The VaR of these financial instruments amounted to ¥25,573 million (\$226,952 thousand) and ¥16,471 million in aggregate as of March 31, 2016 and 2015, respectively.

The Group calculates VaR of investment securities which are exposed to price-volatility risk by the variance-covariance method (six months holding period with confidence interval of 99%, observation period one year). The VaR of these financial instruments amounted to ¥42,693 million (\$378,887 thousand) and ¥33,772 million in aggregate as of March 31, 2016 and 2015, respectively.

In addition, the Group calculates VaR of securities, excluding investment securities, which are exposed to interest-rate risk or the price volatility risk by the variance-covariance method (six months holding period with confidence interval of 99%, observation period one year). The VaR of these financial instruments amounted to ¥50,611 million (\$449,157 thousand) and ¥23,601 million in aggregate as of March 31, 2016 and 2015, respectively.

The Group compares VaR calculated by the formula with the actual fluctuation of realized gains and losses to verify that the calculated VaR reflects market risks with a high degree of accuracy.

However, VaR might not reflect market risks in circumstances such as unforeseen wide fluctuations in market circumstances because VaR reflects a certain amount of market risks calculated statistically based on historical fluctuation.

Liquidity risk management

As to liquidity risk, the Group defines liquidity risk management policies and liquidity risk management regulations, and aims to manage stable cash flow. Also, to be prepared for unforeseeable circumstances, the Group defines a contingency plan for liquidity risks and addresses them in a timely manner.

(4) Fair values of financial instruments

Fair values of financial instruments are based on quoted prices in active markets. If quoted prices are not available, other rational valuation techniques are used instead. Please see Note 29 for the details of the fair value of derivatives. Fair values are calculated based on certain assumptions, therefore fair values may vary according to the assumptions used.

(a) Fair value of financial instruments

March 31, 2016	Millions of Yen		
	Carrying Amount	Fair Value	Unrealized Gains/(Losses)
Cash and due from banks	¥ 327,470	¥ 327,470	—

Assets

Cash and due from banks

The carrying amount of cash and due from banks with no maturities represents the fair value because the fair value approximates such carrying amount.

Trading securities

For securities such as bonds that are held for trading, the fair value is determined based on the prices quoted by the exchange or the financial institutions from which these securities are purchased.

Money held in trust

For securities that are part of trust property in an independently managed monetary trust with the primary purpose to manage securities, the fair value of equity securities is determined based on the prices quoted by the exchange and the fair value of bonds is determined based on the prices quoted by the exchange or the financial institutions from which they are purchased. For money held in trust due to the securitization of credited loans, the carrying amount represents the fair value because the trust assets consist of ordinary deposits. Information on money held in trust by classification is included in Note 6, "Money Held in Trust."

Securities

The fair value of equity securities is determined based on the prices quoted by the exchange and the fair value of bonds is determined based on the prices quoted by the exchange or the financial institutions from which they are purchased. The fair value of investment trusts is determined based on the publicly available price.

For privately placed guaranteed bonds held by the Bank, the fair value is determined based on the present value of expected future cash flows, which is adjusted to reflect default risk, amounts to be collected from collateral and guarantees and guarantee fees, and discounted at an interest rate based on the market interest rate as of the date of evaluation with certain adjustments.

Information on securities by classification is included in Note 5, "Trading securities and Securities."

Loans and bills discounted

For loans with variable interest rates, the carrying amount represents the fair value as the fair value approximates such carrying value because it reflects the market interest rate in the short term as long as the credit status of the borrower has not changed significantly. For loans with fixed interest rates, the fair value is calculated by bundling the type of loans and the internal credit rating using the expected future cash flows, which are discounted by the risk free rate and certain management costs. As for certain consumer loans such as home mortgages, fair value is calculated by discounting the total loan principal with the same rate as a similar loan. Also, for consumer loans that mature within one year, the carrying amount represents the fair value as the fair value approximates such carrying value. In addition, as for loans to legally bankrupt borrowers, virtually bankrupt borrowers, and potentially bankrupt borrowers, the fair value is calculated by deducting the allowance, which is calculated based on the present value of the estimated future cash flow or the estimated collection of cash from collateral and guarantee, from the balance in the consolidated balance sheet date. Therefore, the book value approximates the fair value. Regarding loans which do not have repayment terms because the outstanding amount of the loan is limited to the value of collateral assets, the carrying amount represents the fair value as the fair value approximates such carrying amount according to estimated repayment periods and conditions of interest.

Liabilities

Deposits and negotiable certificates of deposit

For demand deposits, the amount payable on demand as of the consolidated balance sheet date (i.e., the carrying amount) is considered to be the fair value. Time deposits are grouped by certain maturity lengths and their fair value is calculated by discounting future cash flows with the same interest rate as that of accepted new deposits. For the deposits and negotiable certificates of deposits with the repayment period within one year, the carrying amount represents the fair value because the fair value approximates the carrying amount.

Payables under repurchase agreements and Payable under securities of deposits

For payables under repurchase agreements and payables under securities of deposit, the contract term is short (within one year). Therefore, the carrying amount represents the fair value because the fair value approximates such carrying amount.

Derivatives

Information regarding the fair value for derivatives is included in Note 29. (b) Financial instruments whose fair value cannot be reliably determined

	Carrying amount		Thousands of U.S. Dollars
	2016	2015	
	Millions of Yen		2016
Unlisted equity securities	¥ 7,252	¥7,118	\$64,359
Investments in unconsolidated subsidiaries	236	280	2,094
Others	3,112	2,561	27,618
Total	¥10,600	¥9,959	\$94,071

Since the fair values of unlisted stocks cannot be reliably determined, their fair values are not disclosed.

The impairment losses on unlisted stocks for the years ended March 31, 2016 and 2015, were ¥50 million (\$444 thousand) and ¥30 million, respectively.

(*1) Loans and bills discounted whose cash flow cannot be estimated such as "legal bankruptcy," "virtual bankruptcy," and "possible bankruptcy" loans amounting to ¥97,960 million (\$869,365 thousand) and ¥101,679 million as of March 31, 2016 and 2015, respectively, and loans and bills discounted with no contractual maturities amounting to ¥24,792 million (\$220,021 thousand) and ¥34,724 million as of March 31, 2016 and 2015, respectively, are not included.

Please see Note 14 for annual maturities of borrowed money.

28. COMMITMENTS AND CONTINGENT LIABILITIES

Commitment line contracts on overdrafts and loans are agreements to make loans to customers when they apply for borrowing up to a prescribed amount, as long as there is no violation of any condition in the contracts.

The total amounts of unused open commitments as of March 31, 2016 and 2015, were ¥1,380,192 million (\$12,248,775 thousand) and ¥1,404,748 million, respectively. Multi-purpose accounts included in the unused open commitments as of March 31, 2016 and 2015, were ¥715,331 million (\$6,348,340 thousand) and ¥738,969 million, respectively. The amounts of unused commitments whose original contract terms were within one year or unconditionally cancelable at any time as of March 31, 2016 and 2015, were ¥1,368,828 million (\$12,147,923 thousand) and ¥1,395,170 million, respectively.

Since many of these commitments are expected to expire without being drawn upon, the total amount of unused commitments does not necessarily represent actual future cash flow requirements. Many of these commitments have clauses enabling the Bank and certain subsidiaries to reject the loans to customers or reduce the contract amounts of commitment, in the event monetary conditions have changed and the Bank and certain subsidiaries need to secure claims, or other considerable events have occurred.

In addition, if necessary, the Bank and certain subsidiaries can request the customers to pledge collateral such as premises and securities at the execution of the contracts. After execution, the Bank and certain subsidiaries periodically evaluate the customers' financial position based upon the Bank's internal policy, and take necessary measures to manage the credit exposures, such as revising the terms of contracts or securing the claims.

29. DERIVATIVE INFORMATION

The Bank enters into swaps related to interest rates, foreign exchange forward contracts, swap and option contracts related to currencies, over-the-counter bond options and stock index options contracts related to securities.

Notes:

- Derivative transactions are valued at market and the gains/losses are recognized in the consolidated statement of income.
- Market values of exchange-traded transactions are based on closing prices on the exchange markets, such as the Tokyo and Osaka International Financial Future Exchange. Market values of over-the-counter contracts are based on valuation techniques such as the discounted cash flow method and the option pricing calculation models.

30. COMPREHENSIVE INCOME (LOSS)

The components of other comprehensive income (loss) for the years ended March 31, 2016 and 2015, were as follows:

31. PER SHARE INFORMATION

1. Net income per share

Reconciliation of the differences between basic and diluted net income per share ("EPS") for the years ended March 31, 2016 and 2015, was as follows:

	Millions of Yen	Thousands of Shares	Yen	U.S. Dollars
	Net income attributable to owners of parent	Weighted Average Shares		EPS
For the year ended March 31, 2016:				
Net income attributable to owners of parent	¥13,371			
Amount not attributable to common shareholders	—			
Basic EPS—Net income available to common shareholders	13,371	373,663	¥35.78	\$0.32
Effect of dilutive securities:				
Dividends on preferred stock	—			
Cancellation differences on preferred stock	—			
Stock acquisition rights	—	270		
	—	270		
Diluted EPS—Net income for computation	¥13,371	373,933	¥35.76	\$0.32

	Millions of Yen	Thousands of Shares	Yen
	Net income attributable to owners of parent	Weighted Average Shares	EPS
For the year ended March 31, 2015:			
Net income attributable to owners of parent	¥22,799		
Amount not attributable to common shareholders	(200)		
Basic EPS—Net income available to common shareholders	22,599	373,685	¥60.48
Effect of dilutive securities:			
Dividends on preferred stock	110		
Cancellation differences on preferred stock	90		
	200	51,807	
Stock acquisition rights		168	
	200	51,975	
Diluted EPS—Net income for computation	¥22,799	425,660	¥53.56

2. Net assets per share

Net assets per share as of March 31, 2016 and 2015, were ¥902.86 (\$8.01) and ¥920.80, respectively.

Net assets per share of common stock as of March 31, 2016 and 2015, were calculated based on the following:

	Millions of Yen		Thousands of U.S. Dollars
	2016	2015	2016
Total net assets	¥354,182	¥360,183	\$3,143,255
Deductions from total net assets:			
Stock acquisition rights	106	66	941
Noncontrolling interests	16,721	16,037	148,393
Net assets attributable to common stock at the end of the fiscal year	337,355	344,080	2,993,921
Number of shares of common stock at the end of the fiscal year used for the calculation of net assets per share (shares in thousands)	373,650	373,673	

As noted in Note 2.b, the Bank applied the revised accounting standards and guidance for business combinations effective April 1, 2015. As a result of this accounting change, net income per share for the year ended March 31, 2016, decreased by ¥0.95 (\$0.01) and diluted EPS for the year ended March 31, 2016, decreased by ¥0.95 (\$0.01).

32. SUBSEQUENT EVENT

Appropriations of Retained Earnings

On June 24, 2016, the Bank's shareholders authorized an appropriation of retained earnings as follows:

	Millions of Yen	Thousands of U.S. Dollars
Year-end cash dividends:		
¥3.50 (\$0.03) per share on common stock	¥1,308	\$11,608

33. SEGMENT INFORMATION

Under ASBJ Statement No. 17, "Accounting Standard for Segment Information Disclosures" and ASBJ Guidance No. 20, "Guidance on Accounting Standard for Segment Information Disclosures," an entity is required to report financial and descriptive information about its reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available and such information is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

1. Description of reportable segments

The Group's reportable segments are those for which separate financial information is available and regular evaluation by the Group's management is being performed in order to decide how resources are allocated among the Group.

The Group consists of the Bank and six (seven in 2015) consolidated subsidiaries. The Group provides banking services-based comprehensive financial services and leasing business. The Group operates its business by units which consists of some branches located in a certain range. However, the Group discloses these units as a segment of the Banking business because their economic nature is similar to each other. Therefore, the Group consists of two reportable segments: banking business and lease business.

Banking business is operated by the Bank. Banking business provides various services such as deposit-taking and lending services, trading securities, securities investment, domestic exchange, foreign exchange, managing bonds, derivatives business and other related businesses at headquarters and branches of the Bank.

Lease business is operated by Juroku Lease Co., Ltd. It provides leasing business to meet local customers' needs.

2. Methods of measurement for the amounts of income, profit, assets and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, "Summary of Significant Accounting Policies."

3. Information about income, profit, assets, liabilities and other items

2016	Millions of Yen

Notes:

1. Ordinary income represents total income less certain extraordinary income included in "Other income" in the accompanying consolidated statement of income.
2. "Other" includes business segments of credit cards, computer services and credit guarantees.
3. Reconciliations mainly represent elimination of intra-segment transactions.
4. Segment profit is adjusted to reconcile to income before income taxes less certain extraordinary items in the accompanying consolidated statement of income.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of The Juroku Bank, Ltd.:

We have audited the accompanying consolidated balance sheet of The Juroku Bank, Ltd. and its consolidated subsidiaries as of March 31, 2016, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Juroku Bank, Ltd. and its consolidated subsidiaries as of March 31, 2016, and the consolidated results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.
